OMITTED FOR 1905 AND 1906.

1905					
June 4,	Bancroft child	0	0	2	Eclampsia Infantum
1906					
Oct. 5,	Hester M. Whitcomb,	13	5	0	Diphtheria

Total number registered 160, against 151 for 1906.

Percentage to our population, something under 17 in 1000.

INTOXICATING LIQUORS.

No Licenses of any kind have been issued for the sale of intoxicating liquors in Natick during the past year.

DOGS.

Whole number of licenses issued up to Dec. 1, 1907, 533. Males, 458; females, 71; and 1 \$25, breeders' license and three \$50, breeders' licenses. While the total number of licenses issued is less than during the previous year, the financial outcome is greater by reason of the additional number of breeders' licenses. Amount of money turned over to the County Treasurer, \$1339.40, and this, less the necessary percentage retained by the County, will be refunded to the town.

Respectfully submitted,

JAMES McMANUS,

Town Clerk.

I have examined the financial account of the Town Clerk relating to Dog Licenses for the year 1907-8, and find the same to be correct.

TIMOTHY J. MURPHY,

Auditor.

REPORT OF CHIEF OF POLICE

To the Honorable Board of Selectmen:

Gentlemen:—In discharging my duties as Chief of Police, I beg leave to submit to your Honorable Board my first annual report, comprising as full a statement as practicable of the duties performed by the members of this department during the year just past. I shall likewise venture to add such suggestions and recommendations as seem reasonable and necessary.

The following shows the number of arrests during the year, the sex, whether native or foreign born, residents or non-residents, adults or minors:

Whole number of arrests, 418; males, 410; females, 8; native born, 312; foreign, 106; residents, 244; non-residents, 174; adults, 386; minors, 32.

Assault	16
Assault and battery	3
Threatened to assault	1
Violating by-law	3
Bastardy	2
Breaking and entering	1
Cruelty to animals	1
Capias	1
Disturbing on car	3
Drunkenness	230
Delinquent child	2
Disturbing peace	48
Forgery	1

Illegal sale of liquor	1
Liquor nuisance	4
Larceny	19
Malicious mischief	3
Non-support	4
Over-driving	1
Setting fires	5
Trespass	2
Truant	2
Vagrants	64
Violating fish law	1

The miscellaneous duties performed by the Police Department during the past year are as follows:

Doors found opened	11
Defective sidewalks	11
Fire alarms given	10
Sick and injured assisted	1
Lost children restored	5
Lanterns hung in dangerous places	25
Strayed teams taken care of	5
Bicycles recovered and returned to owners	13
Goods found exposed and restored, estimated value	\$957
Stolen goods reported, value	\$742.90
Stolen goods recovered, value	\$425.15
Street licenses sold	2

REMARKS.

There were twenty-two search warrants issued for liquor, six warrants were returned as the evidence obtained did not warrant service, sixteen warrants were served and in six places liquor was found.

Search warrants for stolen goods, 10. In two places goods were found.

The duties of the force pertaining to the hours are : Pat-

rick R. Slamin, acting Chief, 7 a. m. to 6 p. m.; David Church
12 a. m. to 11 p. m.; Thomas P. Evans and Bernard F. McDon-
ald 6 p. m. to 4.30 a. m. at Centre; William H. Topham 6 p. m.
to 4.30 a. m.; Peter G. Kline Sunday officer at South Natick;
Lewis Brown 7 p. m. to 1 a. m. at Felchville.

In conclusion, I wish to thank the Honorable Board of
Selectmen and all citizens for their interest in the welfare of this
department, also Trial Justice Mulligan for valuable advice per-
taining to police affairs. The officers of this department are de-
serving of commendation for the cheerful manner in which they
have performed their duty.

Respectfully submitted,

PATRICK R. SLAMIN,

Acting Chief of Police.

REPORT OF TOWN PHYSICIAN.

To the Overseers of the Poor: —

Report for the year ending February 1, 1908, is as follows:

The amount of sickness among the poor of Natick has been greater with the inmates of the farm than the outside poor and this is not to be wondered at when we take into consideration the class and condition of people found in such institutions; the prevailing disease being chronic bronchitis, which seems to be the principal disease in all such homes: There has also been considerable Grippe among the inmates. The number of accidents previously reported have been eliminated through the thoughtfulness of the present warden in sprinkling the icy covered walk with sand and ashes. I am pleased that the Overseers are about to adopt a system of electric lighting for the buildings at the farm and do away with kerosene lamps and when such is installed, it will eliminate some of the great risks from fire and possibly cremation of the weak and decrepid inmates who would be unable to assist themselves had any conflagration, no matter how small, taken place from the explosion of a lighted lamp or the greater danger of one of the feeble persons dropping a lighted lamp upon the floors.

The number of people at the farm has varied from 25 to 14.

The number of calls at the farm was about 70; at office, 40; and house calls, 192. Two inmates of the farm died, both from old age.

W. J. COCHRAN, M. D.,

Town Physician.

ANNUAL REPORT

OF THE

HIGHWAY SURVEYOR

OF THE

TOWN OF NATICK

FOR THE YEAR ENDING JANUARY 31, 1908

NATICK, MASS.

PRESS OF THE NATICK BULLETIN

SURVEYOR OF HIGHWAYS

JOHN A. WILLIAMS

HIGHWAY SURVEYOR'S REPORT

I beg to submit my Eighth Annual report as Highway Surveyor of the Town of Natick.

In addition to the regular appropriation, our department had \$5000 extra to macadamize No. Main St., beginning at Sunnyside and working South.

For the past few years, I have urged the Selectmen to endeavor to make some agreement with the Street R. R. Co., to the end that the tracks on North Main St., be re-located so that the street could be put in proper shape. This matter has been consummated this year and the removal of the railroad tracks to the side of the street has enabled us to give to the town, instead of the two narrow drive-ways, which under the old arrangement existed, as good a stretch of macadam boulevard as there has been constructed in these parts. Incidental to the building of this road and with a view of the future, I determined to make its permanency secure and constructed an underdrain of about 1400 feet, beginning at the Culvert at the Sweeney estate and running North. I also have covered over the natural water way which has been rather a dangerous place for vehicles and when I complete the grading of same it will create a side-walk from the Felchville schoolhouse to the Engine house, an improvement which I believe will be appreciated by citizens who traverse that section. This piece of work cost \$1007 63. To get this road to the proper sub-grade to receive the stone it was necessary to excavate 3700 cubic yards.

In making this excavation I encountered about 500 yards of sub-soil which had to be removed and replaced with proper

material. We utilized the gravel taken from No. Main St. in improving Worcester St. for 2500 ft. in length and 18 ft. in width. From the Mass. Highway reports we learn that the cost of excavation averages with them about 50c. a cubic yard. We feel that the citizens will be pleased to know that in this work on North Main St., it cost us less for excavation than the figures as quoted above which was 25c. a yard on a total of \$1050 00.

The cost of underdrains and excavation of the sub-soil has been greater than estimated, but, we had to meet conditions as found and it was absolutely necessary to perform this work. We recommend that \$2000 be appropriated this year to extend and complete this street.

The town appropriated \$750 to construct a sidewalk on East Central Street. We commenced at the Griffin estate and constructed a sidewalk on the South side running East by the Donovan and Hunnewell property. This work entailed considerable blasting of ledges to make this sidewalk safe and secure. One particular ledge near Wellesley line which projected from Hunnewell property was removed and Mr. Hunnewell has erected a face wall along there, a vast improvement over former conditions as they existed.

It will be remembered that this sidewalk was recommended to safe-guard pedestrians who were obliged heretofore to walk in the street—a dangerous locality on account of the many automobiles which used this Street, always a hazardous spot for school children and pedestrians.

In the matter of Concrete walks will say that the money was used principally in re-surfacing this year. We built three new bridge walks, viz: North Main, Walnut and Washington Streets also raised and re-surfaced walk on Pearl Street as per vote of last annual meeting. A detailed report of work performed in this department is printed on another page of this report.

Again this year we have given our close attention to under drains, and the districts covered have been quick to commend the vast improvement and benefits already derived from this work.

The Town of Natick appropriates less money than any town of its size that we know of, for the care of its streets, and when it is considered that we take care of the Fire Department, (as far as horses and drivers are concerned) out of our appropriation, when the citizens will remember that town employees are under an eight hour a day working schedule, it must be conceded that we make the best possible showing for the amount of money appropriated to this department. We invite the closest scrutiny of our report to see just how this disbursement of street appropriation has been apportioned.

Since my first year in this department, I have endeavored to improve my knowledge of road making and the Mass. Highway Commission has made it possible for superintendents to keep apace with the improved and revised methods. Everybody agrees that the old methods must give way to the more economical and practical knowledge used today by the best authorities in this art. We have tried and think we have succeeded in applying some of these practical ideas, with what facilities were at our command and results show an improvement all along the line.

JOHN A. WILLIAMS,

Superintendednt.

REPORT OF TRUSTEES

To the Citizens of Natick:—

The trustees of the Morse Institute herewith respectfully submit their thirty-fifth annual report.

A cursory reading of the report of the librarian must clearly demonstrate that the Institute has not only maintained its usual popularity among our reading public, but has widened its beneficent influence, and aroused the old and young to a better appreciation of the manifold advantages and privileges offered to all our citizens by our public library. During the past year the interior of the building has received needed attention, and the ceilings and walls have been cleaned and frescoed and have been put in a more satisfactory condition. Arrangements also have been made for additional stock room. The reference library has received during the year some valuable works on various subjects and has thus become more attractive to the advanced patrons of the library. The children's department continues to be generously patronized, and all new books are eagerly devoured if not thoroughly chewed and digested. Great care and discrimination are exercised in the volumes purchased for this department. By so doing there is created, we believe, a more refined taste among our young readers who gladly welcome the selections made, and become beneficially influenced by such reading.

The clerical management of the library retains the confidence of the trustees.

Attention is invited to the reports of the Librarian and Treasurer herewith appended.

HENRY C. MULLIGAN, President,
FRANGIS BIGELOW, Treasurer,
FREDERICK O. BASTON, Secretary,
JOHN F. McGRATH,
ALOYSIUS J. DOON,

Trustees of Morse Institute.

REPORT OF THE LIBRARIAN.

To the Trustees of the Morse Institute :

GENTLEMEN :

The annual report, which is also the thirty-fifth, for the year ending January 31, 1908, is herewith presented.

There has been a satisfactory increase of work in all departments, and although the library was closed two extra days because of repairs, the total circulation is the largest yet recorded.

A reduction of two per cent in fiction is encouraging, but the quality of that read averages well, and an earnest endeavor is made in purchasing to exclude all books not embodying wholesome principles. Also as many volumes after years of service are wearing out, only those of value are being replaced.

The number of calls for the extra books loaned in connection with the out-of-town vacation was noticeably larger, and the additional allowance on the non-fiction card is a privilege that seems to be appreciated. There are as few restrictions of any kind as are compatible with the general welfare, and it is seldom that the liberty is abused.

Requests for books to assist in various lines of study are growing more numerous and are complied with as far as possible, for the only way a library can successfully fulfil its mission is to be fully equipped to furnish information on any desired topic that comes within its scope.

The reclassification is still in progress and nearing completion. Such books as are obsolete by reason of age and in no demand are relegated to the basement where cases have been constructed to hold them, and where they can be obtained whenever necessary. This leaves room for later additions and places the library upon a better working basis.

A department of music is in formation on a small scale, and is a branch of the fine arts heretofore neglected but which is becoming a necessary adjunct to all libraries. Professor Macdougall of Wellesley College says that, "The idea that music is mere emotional enjoyment and is therefore unintellectual, is responsible for much of the distrust of the art felt by many educated people. Music makes many contributions to the individual life and gives opportunity for self-expression. We take great care that the tongue shall be disciplined and eloquent, but what about the soul? Of all the arts music does this best, for its material is its own."

The following collection of pictures sent by the Massachusetts Library Art Club have been exhibited to the delight of many:

Babies in art.
 City of Rouen.
 Concord and Concord fight.
 Elson prints.
 Famous pictures.
 Greece.
 Land of Evangeline.
 New Brunswick, Gaspé Peninsular and Halifax.
 Paris.
 Plymouth and The courtship of Miles Standish.
 Song of Hiawatha.
 Yellowstone National Park.

Among the books added to the reference department are four sets requiring particular notice as they are destined to be very popular because of their utility. They comprise the *Cyclopedia of Modern Shop Practice*, 4 v., *Cyclopedia of Engineering*, 5 v., *Cyclopedia of Electricity*, 5 v., and *Cyclopedia of Architecture*

and Building, 10 v., and fill a deficiency which has been felt for some time. The industrial situation is one that must be met with an adequate supply of material as well as in history, literature or the fine arts, and this section will be extended as occasion demands.

Miss Randall or the Young People's Library has had a busy year, for beside maintaining supervision over more children much of the time than the rooms would comfortably hold, she has had a larger circulation than ever before as more books have been delivered for home use and to the schools. The graded list compiled by John W. Northcott, principal of the Wilson School, has been partly responsible for the increase, as it has been the means of many new applicants and a revival of interest in the old. This together with the success she always has with the children, has created a record for this department not excelled by any previous year.

Not as many new books were added as desired because of the cost of keeping in repair those already in circulation. The wear and tear is very severe here, and the expense of binding and replacing is heavy, therefore it would seem desirable another year to provide for the binding out of the annual appropriation.

Through the kindness of Mr. John B. Leamy, books were delivered to the Goodnow School in Felchville free of charge.

A new set of stereoscopic views on the industries of the world were added in the spring, and are as popular as the others.

It was found necessary last winter to open these rooms during the noon hour to accommodate the children and relieve the congestion in the reading rooms, and this winter an extra half hour has been added to the evening session for the same purpose. Since the Young People's Library was first opened, Miss Randall has had oversight of the reading rooms, afternoons, for six months each year, and the extension of the time for the children not only benefits them, but also makes it possible to keep the entire first floor under supervision during the absence of Mr. Bryant.

Mr. Wilson's desire that the children's department should be a power for good is realized more forcibly every day, and the returns are far beyond the amount invested.

The reading rooms have been much improved by the new chairs which complete the set, and with the freshly painted walls are very bright and cheerful, and are well patronized at all times. Also the Sunday attendance is good, when from the middle of September until the middle of June, the rooms are open from 2 until 6 p. m., with Mr. Bryant in charge. Many societies and individuals contribute papers and periodicals to this department and the current national and state documents are stacked here as received.

Numerous gifts from many other sources have been tendered the Morse Institute, and the editors of the Bulletin and the Review have donated space in their columns for booklists and other items.

In closing I wish to thank the trustees for their kindly oversight and support, the staff for their faithful allegiance, and the janitor for favors received.

Respectfully submitted,

MIRA R. PARTRIDGE,

Librarian

BOARD OF HEALTH

WILLIAM RICHARDS, Chairman

WILLIAM E. McCORDICK, Secretary

WILLIAM E. DANIELS

REPORT OF THE BOARD OF HEALTH.

The following report is herewith submitted by the Natick Board of Health for the year ending January 31, 1908.

The board organized March 18, by the choice of Dr. W. Richards, chairman, and William H. McCordick, secretary.

The number of calls for the abatement of nuisances has varied somewhat from that of former years, it being 89, and this will be the more manifest year by year as more general connections are made with the public sewer.

In response to a petition signed by several citizens, the board caused the south arm of Pegan brook to be thoroughly cleaned and several sections of the adjacent walls put in safe condition. The north arm of Pegan brook also calls for the early attention of this board, it being found, in the late fall, in dangerous condition, in consequence of the railroad ties, which made the covering, having rotted and fallen into the bed of the stream.

SCHOOL COMMITTEE'S REPORT

IN SCHOOL COMMITTEE,

NATICK, FEB. 1, 1908.

The Superintendent presented his annual report for the year ending February 1, 1908. Voted to accept his report and to adopt it as the report of the School Committee.

HENRY C. MULLIGAN,

Chairman.

REPORT OF SUPERINTENDENT OF SCHOOLS

Mr. Chairman, Ladies and Gentlemen—

I have the honor of submitting my eighth annual report as Superintendent of Schools in this town, and I make note therein of such matters as may be of interest to parents and citizens.

ATTENDANCE.

Statistics have been prepared and appended to this report to explain such facts as may be made clear in that way. Attendance undergoes but little change in Natick. There is no numerical growth, a slight shifting from one section of the town to another, but very slight. It may or may not be significant that the increase goes to our newer and better equipped buildings. This increased attendance at Felchville obliged the committee to complete the room which was left unfinished at building and the room was ready for occupancy at the opening of the fall term and immediately filled. This room was completed and furnished out of the funds of the regular appropriation for repairs. The Wilson school maintains its uncomfortably large attendance, in numbers only limited by the size of the building.

The article in the town warrant calling for the consideration of the need of a new school building for the centre of town in place of the present Wilson building, deserves careful thought. The present building is not a worthy one in any sense of the word. It is easy of egress

in case of fire and the rooms may be comfortably heated. But those are the only two features of merit apparent. Its demerits are glaring ones. About 550 pupils are assembled in twelve rooms; the number in each room is so large that an insufficient amount of fresh air per capita is supplied and ventilation consequently suffers. The light is very faulty, both because of scanty window surface and because much of the light normally available is obstructed by adjacent buildings and trees. The system of closets, though originally installed in accordance with the plan of the state inspectors is not wholly reliable and without constant care might become a menace at any time. The halls and corridors are absolutely without heat; the rooms in consequence very drafty and the effect upon the health of the children may easily be inferred. Cloak room arrangements are impossible of ventilation. Closet rooms for storage and for teachers' use are practically non-existent.

This article calls simply for a careful consideration of existing circumstances by a committee of citizens. Such consideration should be welcomed and urged by all who have pupils in the schools and who are interested in educational progress.

The committee is now providing the conveyance to school for pupils resident in two different localities. Three or four children living near the Wayland line are being conveyed to the North Natick school and the children living in or near the Southville section of the town are conveyed to the Oak Grove school. Since September the plan has been tried of conveying the children last named to and from school at the dinner hour as well as at morning and night and in general it has been a more satisfactory arrangement than that of having the children remain at the building during the noon hour. Of the children who are now conveyed to school in the Southville barge there are thirteen who under former conditions would attend the Southville

school. Of this number, one child is in the first grade, none in the second, two in the third, two in the fourth, four in the fifth and four in the sixth. The other children who are conveyed in the barge are either in higher grades or pupils who were already attending the Oak Grove school previous to the consolidation.

The regularity of attendance for the last school year was slightly less than in previous years, partly no doubt because of the greater attention given to the health conditions of the pupils and because of the frequency with which children have been excluded from school temporarily when their physical condition seemed to render it desirable

SCHOOL HYGIENE.

In compliance with the law relative to medical inspection which was quoted in full in my last report to the committee, Dr. M. F. Burke and Dr. W. W. Walcott were elected school physicians and assumed responsibility on May 10, 1907. Their work has been to answer all calls sent to them by teachers and make examinations of such pupils as were referred to them, while the law gives them very wide latitude and free authority in the exercise of their discretion in matter concerning the health of teachers, janitors and pupils, and the condition of school premises. In the few short months since their appointment a large amount of work has been done by each physician in the way of examination and exclusion from school. Between May 10th of last year and June 30th, about 120 children were carefully examined, practically all of them being children whose general appearance and response to the routine of school work had given teachers cause to suspect that their physical condition was below normal. With very rare exceptions the result of the medical examination verified this suspicion and parents accordingly received notices apprising them of the state of affairs and advising that their

family physician be consulted with reference to the children's condition. In one primary room where there was what might be considered an unusually dull class, fourteen of the most backward children were examined at one time, all of whom were found to have physical impairments which had undoubtedly contributed to the mental dullness; in most instances these being adenoids. The experience of these few months has been of marked value. Many parents have received timely notice of defects which were interfering with the development and efficiency of their children and some though only a small minority of such children have had their condition attended to with the usual advantageous result. Of especial importance too, the teachers by being so forcibly impressed with the frequency with which mental obtuseness is caused by physical defect, have had a better understanding of their work and more sympathy with cases which before have not always been thoroughly understood. As a consequence children have been sent home with great frequency when in poor physical condition, regularity of attendance being subordinated to the desire for healthy growth. Pupils who feel physically below par are not in condition to do or to desire to do good mental work, while their withdrawal for a few days often means much to their own comfort and to the well-being of their fellows. An occasional inquiry from parents has made we think that it is not fully recognized yet how stringent this supervision is intended to be, so that the following statements should be made. A child who is a member of a household in which a person is ill with *any* infectious or contagious disease, or whose household is exposed to such contagion from another household, must before he attends school furnish the teacher with a certificate from either the board of health or the attending physician that danger of conveying such disease by such child has passed; also any child returning to school without a certificate from the board of health after absence on

account of illness or from unknown cause, shall be referred to the school physician for examination and diagnosis. By inference this would call for the exercise of most scrupulous care by the board of health in granting such certificates. I believe that the possibilities of future good to come from this careful supervision are yet but little realized by the general public.

The tests prescribed by the State Board of Education for eyesight and hearing were carried out during the fall term in accordance with the directions given, and the following are the returns submitted:

Name of School.	No. pupils Tested.	Defective in Eyesight.	Defective in Hearing.	Parents notified.
High . . .	244	16	2	18
Wilson . . .	480	50	9	24
Eliot . . .	175	16	3	11
Pond . . .	134	18	0	18
Oak Grove . . .	150	13	8	17
Felchville . . .	161	24	4	15
Bacon . . .	146	16	12	22
Harvard . . .	72	9	2	10
West . . .	49	4	1	5
North . . .	26	2	0	2
Total	1637	168	41	142

By direction of the state board of education notice of defective vision in children was sent to parents this year only where the deficiency was greater than a certain standard fixed by the board, consequently where the deficiency was very slight no notice to parents was sent. In some instances pupils already wearing glasses were found to have unsuitable ones and parents were notified of this condition as well.

While a number of children have been fitted with glasses since these tests were first made and in consequence

of them, the number is not so great as the conditions demand. Very beneficial results have followed however where the advice of the teachers has been taken and expert treatment has been sought.

This matter of the physical growth and welfare of the children is a very vital one indeed, one that has too long been disregarded by public thought. All the mental training in the world is of little avail unless the child develops with it a sturdy, sound body. It is the duty of the school to see that the child be given the proper amount of oxygen during school hours through the medium of good ventilation, and that the conditions for study shall be such that he may not suffer from eye strain or nervous derangement. It is a great responsibility and one which because of circumstances we are not always able fully to carry out. Yet we can readily see what ills might result, if we did not constantly have this responsibility in mind. A hearty public realization of the fundamental importance of the development of the physical side of childhood would accomplish wonders for the schools. One of the most absurdly, inconsistent features of modern education is the fact that while our colleges and academies build gymnasiums and maintain courses of physical training to develop bodies already well on to maturity, and to remedy defects already well established, children in the mass are allowed to grow up through the public school system without any physical direction of any sort. That is, we pay liberally for cure, very sparingly for prevention. Interest in physical development has begun at the top and is only gradually working down. May we not reasonably be pardoned for becoming impatient for its extension.

I would suggest that it would be of advantage to our school course if the hours of session in the first two grades at least were shortened?

It is too great a strain on the average child to take him

from an environment where there is an absence of restraint and place him for five hours a day in an atmosphere of more or less rigid repression. Furthermore, it is not necessary. The school hours might with advantage be cut almost in halves in the earliest years, the children attending by divisions. I would advise that such a plan be tried during the next school year.

It would be of much advantage to the children both from a physical and mental standpoint, if the age of entrance to school were later than it now is. An increasing number of parents is beginning to realize this and I feel that the average age at entrance to school will gradually rise. It is the very rare child of five or five and a half who would not be better off at home and at play than at school. School is of necessity different from play and the transition should be easy and at an age when the child will not suffer.

SCHOOL WORK.

In September our primary schools began a new system of teaching reading and one which has apparently proved an unqualified success. We have for some time used a modification of what is known as the Pollard system, one which was based primarily upon a study of phonetic elements of the word. This while effective was also weak because of its tendency to extreme dullness, offering little attraction to the interests of the children. Our present system on the contrary, at the outset emphasizes the phonetic elements of the word less, while it appeals to the natural interests of children in pictures and stories and rhymes, and the words descriptive thereof. Thus far we have attained more power and greater interest and to that extent we are the gainers from the change.

In teaching writing I feel that the time has come to change from the vertical system to one which may be more easily and rapidly written. The tide in favor of ver-

tical writing has generally receded now and schools are gradually turning to a system which admits the development of a more practical writing. The experience with vertical writing however, has not been without its marked advantage, for if vertical writing has passed by, so has also the old-time slant with its flourishes and its shadings, and the future years will see a happy medium. People have been taught to appreciate the value of legibility, and the writing of the future, a natural slant, will combine the legibility of the vertical and the speed of the slant. Moreover, the defect of the vertical, its lack of speed, has called attention to the great desideratum of all writing, the acquisition of an easy forearm style of writing and an appreciation of the utter inutility of anything else and this lesson has been thoroughly taught. I would advise a change in method at the beginning of the next school year.

In respects other than those I have named, our course of study has not changed during the past year, nor are other changes at present in contemplation unless it be in connection with the history work to develop a better knowledge of the idea and practice of government. Some valuable development in that line is possible I believe, and I hope to be able to bring it about.

We are securing uniformly thoughtful and studious work on the part of our corps of teachers; as usual numerous changes have taken place but the work has been that of a unit in the endeavor to do their whole duty by all children.

EVENING SCHOOLS.

At the last annual meeting of the taxpayers, the sum of \$500 was appropriated for evening school purposes and thus after a lapse of a number of years a free evening school was once more opened in Natick. Mr. Northcott of the Wilson school was chosen principal and the assistants were ap-

pointed from our regular teaching staff. Mr. Northcott's report on the work of the school follows and I will merely say that I believe a great amount of good was accomplished with the money expended. The fact that few English speaking pupils were in attendance was to be regretted. Possibly if a school for such pupils were entirely distinct from that for teaching the non-English speaking pupils, the response would be greater. For the future I would suggest the advisability of maintaining an evening course for instruction in cooking and possibly in sewing. We have the building and equipment for such work and under the provisions of the state law recently passed for the encouragement of industrial education, the state would bear one-half the expense. An appropriation of \$250, being a net expenditure of \$125, would maintain both evening schools, and I believe that they would be heartily appreciated.

NATICK EVENING SCHOOL

Mr. A. L. Barbour, Superintendent—

The free evening school for the study of the elementary branches was opened in the High School building Oct. 7, 1907. Classes were held on Monday, Tuesday, Thursday and Friday nights of each week from 7.15 to 9 P. M. The total number of sessions was thirty-six. The classes were in charge of five day school teachers and the principal.

Previous to the opening of the school, the attention of the factory owners was called to the law requiring compulsory attendance of all illiterate minors at an evening school in towns where such a school is maintained. At the request of the superintendent of schools the factory owners furnished lists of illiterate minors who were in their employ.

The total number of these minors was 60, 58 men and two women. At the end of each week, these minors were given a certificate of regular attendance. This certificate could then be shown to their employer and returned to the school at the next regular session. A few cases of irregular attendance were reported to the factories and by their co-operation a good per cent of attendance was maintained.

A conservative estimate places the number of Albanians and Greeks in Natick at about 250. Of the number nearly 100 were attendants of the evening school. Most of them have been in this country for periods of from six months to two years, and therefore are very eager to learn our language.

Instruction was given in reading, writing, spelling and arithmetic. Some informal talks were also given on such parts of our history and civil government as would fit them for intelligent citizenship.

The evening school statistics are as follows :—

Total number enrolled	161
“ of males	155
“ of females	6
Largest attendance Oct. 8	100
Smallest attendance Dec. 3	63
Average “		81.5
“ membership		992.3
Per cent of attendance		88.29
Average attendance of illiterate minors		48.1
“ membership “ “		52.8
Per cent. of attendance of “ “		91.09

JOHN W. NORTHCOTT, *Principal.*

INDUSTRIAL WORK

Reference was made to industrial education, and just a word needs to be said on that subject. The spirit of such education is very wide spread in Massachusetts and in the nation just now. Those who were fortunate enough to hear Mr. Charles Morse, Secretary of the Massachusetts Commission of Industrial Education, when he spoke in Natick this winter, or who have read of the rapid strides the movement has made since Governor Douglas gave it impetus, realize the immense possibilities that it may embody. As yet the commission is very much in the experimental stage so far as practical application to particular industrial needs is concerned, but future investigations and experiments will determine how soon and to what extent, and in what way opportunities for industrial education may be made available for those who need and who would accept them. As yet our country has done comparatively little in this direction beside many of the countries of Europe. It is inevitable that the future will witness rapid growth in the assimilation and application of the industrial idea and the movement will extend to the lower schools in alliance with manual training.

The development of this side of education will be welcomed by all thoughtful people and there is little danger of its being assailed with the cry of fad. The study of the essential subjects of the curriculum will be knit into the handiwork of the child, and with the manual and mental interests of the child working in harmony we shall have a better developed brain and a more alert, ingenious pupil. In every way the coming years of educational thought and practice bid fair to be most fruitful ones, and years of marked progress.

GARDENING

Last year, through the agency of the Village Improvement Society, an attempt was made to interest the children

of the last six grades of the elementary schools in planting and caring for flower or vegetable gardens at their homes. Prizes were offered of two classes, and in six grades, for the best gardens, specifications being made as to the size, kind, and care of the garden. Instructions were given by teachers as to soils, soil preparation and enrichment, the germination of seeds and the care of the plants. Opportunity was provided for children to purchase their seeds at one cent per package, and the expectation was expressed that there would be a suitable inspection of the gardens from time to time. The response by the children was unusually hearty, so much so as to constitute in itself the one obstacle to the complete success of the plan. About three hundred children were interested to the point of buying seeds, something more than three thousand packets in amount, and it was not possible to secure a sufficient number of adults who had the time and the inclination to assist in providing proper supervision and inspection. As a result it was impracticable to properly judge the gardens, and consequently instead of awarding graded prizes to a few, supplies of bulbs and a few books on gardening were distributed to children who were reported at last inspection to have creditable gardens. The conclusions to be drawn from last summer's experience were these: An unexpectedly large number of children had their interest aroused in garden culture; at least one-third of these maintained their interest even without adequate supervision, and in some cases in the face of most adverse conditions; finally, with interested supervision, it might safely be said that a large amount of good could be accomplished among the young, many of whom have no summer occupations and interests of any worth. The whole question merges, of course, into the greater problem of the adequate use of vacations for healthy growth, but it is a phase which may readily be worked out to results of much value with but slight expense, if backed by a modicum of practical popular

interest. The experiment should be repeated and past mistakes avoided.

HIGH SCHOOL

The report of Mr. Rice upon the condition of the high school follows. He has frequently called attention to the problem of school athletics. Personally, I feel that we need more school athletics and less inter-school athletics. We need a spirit of athletics which will interest four times as many pupils as we do now—girls as well as boys—athletics where the development and the contests will be within the school, between classes and individuals; one contributing to a general physical growth for the many rather than to an occasional contest for a dozen or so. It is difficult to see the proper solution, but the problem is a great one; a problem, not of the school simply, but of young manhood and womanhood everywhere.

Mention should also be made in this report of the establishment at Harvard University of four scholarships, two with an income of \$200 each, and two with an income of \$150 each, from the income of the Edwin Erwin Coolidge fund, given in memory of Edwin Erwin Coolidge of Natick, Massachusetts, of the class of 1901, "In accordance with the desire of the givers, these scholarships will be administered as loans. They will become due five years after the cessation of the incumbent's connection with Harvard University as a student. Subject to the specified preferences in the assignment of these scholarships, they are intended to confer an academic distinction like that attaching to other scholarships. It is the desire of the founders that in estimating the worth of a candidate for one of these scholarships weight shall be given not only to his mental and moral qualities, but also to his bodily health and vigor, especially as shown by proficiency in out door sports. In the assignment of these scholarships preference will be given to the descendants of John Coolidge, who settled in Watertown,

Massachusetts, about 1630, and to residents of Natick, Massachusetts."

REPORT OF HIGH SCHOOL PRINCIPAL

MR. ALBERT L. BARBOUR,

Superintendent of Schools.

Herewith is submitted the annual report of the High School.

The graduation exercises of the class of 1907 were held in Concert hall, June 26. The change permitted in the character of the exercises obviated to some extent the serious difficulties heretofore connected with graduation. As the occasion was regarded as a class-day rather than a public entertainment, only a limited number of tickets were issued to the members of the class for their parents and friends. So far as known the plan met with general approval, particularly on the part of those immediately interested. It is believed that still further modification of the exercises would result beneficially. The literary program was as follows:

Music—Selection by Orchestra

Singing—"Babylon" Geo. B. Nevin
School Chorus

Things Wise or Otherwise—A publication devoted principally to the interests of the Class of 1907

Editorial Staff:

Editorials—Martha Dorothy Hill

Locals—Mary Gertrude Ormond

Answers to Correspondents—Emily Wingate Woods

Literary Column—Marion Story Loker

Advertisements—Margaret Una Mahan

Song—"The Bird and the Rose" . . . Horrocks
 Bertha Lizzie Irene Pulsifer

Class Oration—"Does It Pay?"
 Ernest Roland Preston

Singing—"The Song of Spring" . . . G. A. Veazie
 School Chorus

Presentation of Diplomas

Mr. Llewellyn E. Pulsifer, Member of School Committee

Music—Selection by Orchestra

At the conclusion of the literary exercises a reception was held by the officers of the class, after which dancing was permitted until eleven-thirty.

CLASS OF 1907.

Marguerite Evelyn Vaughn,
Emily Wingate Woods,

As an expression of appreciation and goodwill, the class presented to the school, plaster casts of three slabs of Alexander's Triumphal Entrance into Babylon. These are placed upon the northern wall of room three, and are both ornamental and educational.

The present enrolment of the school is two hundred thirty two, being but slightly smaller than usual. Our High school enrolment for a number of years past has been abnormally large for the school population, averaging from fifty to seventy five more pupils than in towns of the same size and working under the same conditions. It seems probable that high schools will continue to grow larger and more complex as the demand for high school graduates of the right sort increases, and the value of a high school education becomes more apparent. Employers are more and more requiring education and ability as well as character. It would surprise many to learn how often high school principals are asked to furnish testimonials in these respects. If the high schools are to meet the demands made upon them, they should be so adapted that they can meet them. They should be supplied with all necessary materials and appliances, and room in which to use them effectively. Methods of work, textbooks, courses of study, and laboratory and other equipment that answered the purpose a few years ago are fast becoming obsolete, and, like old machinery in a factory, should be wisely replaced by what is manifestly superior and abreast of the times. The demand is for trained workers in the industrial and commercial worlds; and therefore a correspondingly large share of attention should be devoted to this end, at the same time affording ample advantages to those who wish to pursue literary and

college preparatory courses. It seems very probable that in the near future there will be introduced into high schools quite generally by legislative enactment, some scheme of industrial training and courses of study which with associated shopwork, will so prepare pupils that they may hope to become skilled workers in the various trades. Altogether too many young people when through with school are not fitted for any form of productive employment.

After a pupil has reached the high school age, the benefit derived from his school depends largely upon his natural ability and the effort he personally makes. Uniformity of results should not be expected, for pupils are not all equal,—they never have been, and never will be. The end to be desired is that each individual may be developed as far as possible. The only sane and just test of the efficiency of a school is whether it is doing the best work it can under its own peculiar conditions. But skilful teaching, expert supervision and palatial surroundings cannot make a scholar out of one who lacks ability, or who has no desire to learn, or is unwilling to help himself. The school should be a workshop and not a correctional institution, or an asylum where boys and girls may rest and seek entertainment until they are old enough to be put to work. That the grade of the school may be maintained and the interest of the majority advanced, it is very desirable that pupils take no more studies than they can pursue with advantage, and that they early be required, and become accustomed, to do thorough, conscientious work. If any, through lack of application or through temperament, are unable to keep along with their classes and secure promotion, they have no just cause of complaint. It is a mistaken kindness, if not a positive injury to a pupil, to permit him to continue in a grade without doing the work of that grade, as well as great injustice to others who are doing their full duty. Neither age, nor size, nor pride, nor influence enters into

the question of promotion, for it is wholly a matter of effort and accomplishment, the pupil always being given full benefit of any doubt.

The percentage of attendance during the year remains about the same as heretofore. But there are too many unnecessary absences. Many have been detained at home by genuine disability, and their cases being readily understood cause no uneasiness on the score of attendance. Our anxiety is caused by those who remain away from school a day or so at a time without any valid reason, thereby falling behind in their work and losing their interest, and exerting a bad influence upon the spirit and progress of the class.

The perennial subject of punctuality is worthy of mention once more. There is room for improvement in this respect. Parents could be of great assistance, if they would insist upon their children's starting for school sufficiently early to enable them to arrive on time. Punctuality is a very desirable quality in people, as well as in railroad trains.

As for several years past, the teachers of the school are giving Monday afternoon of each week for the purpose of rendering assistance to those who are backward in their work, or who may desire further explanation. Many have availed themselves of this opportunity and have been benefitted by it. Others, doubtless, would do so, were they not prevented by distance or by home duties. More rapid progress is made in a study when the work is done under the direction of a teacher; supervised study is often more advantageous and helpful than class recitation. The quiz is necessary and beneficial, but in the case of older pupils too much time is frequently spent in seeking to find out what they do not know. It is a good plan at times to branch off from the regular routine and show pupils how to study and at the same time teach them something new. This does not always make a class appear to advantage, but it does

promote interest and progress. High school teachers by nature of their work are required to be specialists in their individual departments, hence there is always danger of their forgetting the pupil and becoming absorbed in their subjects. A plan by which the teacher and pupil may come into closer relations, and the pupil receive what he individually needs and learn what effort he is in duty bound to make, would be very beneficial to a school. The Monday afternoon session is a beginning in this direction and could be extended with profit.

It is the aim of the management of the school to have both teachers and pupils work together harmoniously with a single end in view, to make pupils efficient, self reliant, helpful—that is, help them for right living.

Respectfully submitted,

HORACE W. RICE,

Principal.

SPECIAL TEACHERS

Miss Isabel Sewell, for some time supervisor of drawing in our public schools, resigned her position in June and was succeeded by Miss Ethel W. Ratsey who fills the same position in Wheaton Seminary, and in the public schools of Ipswich. At the close of this report will be found outlines indicating the plan of work which the schools are now following in drawing. The work in domestic science has followed the same plan as for some years past with the eighth and ninth grade girls. Parents whose daughters receive lessons on the piano are careful that the girls practice assiduously at home. Practice in line with the lessons of the domestic science would be equally desirable and not less valuable. The manual training school has had full classes from the eighth and ninth grades but a very light attendance from boys of high school age where it is

elective. This has been due to several causes which it may be possible to correct. Of course the great value in brain development is secured in the grade school, but I am sure there are many high school boys to whom manual skill will be of value in after life who are not now attempting to train it. The report of Miss Elen H. Bartlett, supervisor of music, is given in full

REPORT OF SUPERVISOR OF MUSIC *

Mr. A. L. Barbour, Superintendent of Schools : —

The following is submitted as my annual report of the music in the public schools of Natick.

This year a slight change has been made in the work of the first grades of the town. We are endeavoring to train the ear by means of rote songs, so that the mind of the child will comprehend the difference in pitch, and will be able to imitate the tones he hears. Until this is thoroughly done, little or nothing can be accomplished in his musical education: When this is attained, the pupil is ready for musical notation and the more advanced work which follows in the school course.

Children learn to sing after they learn to talk. The musical sense develops later than the language sense. When the child goes to school, he finds that all the words he says and all the words he finds in his reading book, are formed from letters. So in the same way he learns that the songs he sings are various ways of arranging a set of tones which is called the scale. So with rote songs, we will not only interest the children, but also give them valuable ear training.

Songs are selected that are easily understood, which have words that the children can comprehend, with a musical setting that is simple and pleasing. Some of the songs are taken from the "Steele Rote Song" book, a copy

of which was placed in the hands of the primary teachers last September. Some of the pupils learn these songs very quickly and accurately, while others whose tone perception develops more slowly do not acquire the power to sing them so readily.

I often ask some child to sing a song for me; he chooses any one of the songs he has learned and sings it alone. In that way I can tell how the individual is progressing.

Rote songs are also taught in the second, third and fourth grades.

We are endeavoring to give the pupils in the schools such musical training that they will be able to read music written in any key with equal fluency. A little test which I have used has proved very effective and stimulates the pupils to greater effort. I ask all the pupils sitting in one row of seats to stand; as fast as I put the notes on the board, the children name them in turn. If they fail, they sit down. Then I take the next row of children in the same way and so on through the school, going around the class two or three times as time allows. At the close of the drill I make a note of the number of children who have made no mistake throughout the test. It takes but a few minutes to go around the class and the number of pupils which remain standing increases from time to time.

Many children have become quite proficient in writing short melodies. The pupils as young as those in the third grade have written some very good ones. They write them on the board, and the best ones are sung by the rest of the school.

In order to sing the exercises and songs intelligently, there are certain points of theory which must be understood by the pupils. These points are explained as they appear in the music readers. Written tests on this theoretical work have been given to all the grades above the

third. There will be three of these tests during the school year. These papers have been corrected, and the number of pupils having the highest rank was kept, also the number having the lowest. It is hoped that when the next test is given the number having high rank will be even larger than before.

In some of the schools there is great need of new books. Those in use were purchased a number of years ago, and are badly worn. As the Harmonic music readers are taking the place of the old ones, it is hoped that all the schools will soon be equipped with these books.

We are constantly working for purity of tone, clear pronunciation of syllables or words, as the case may be, and for precision of attack in chorus work.

I wish to thank the teachers who have helped to bring about such excellent results by their co-operation, and the superintendent for his hearty support.

Respectfully submitted,

ELLEN HOWE BARTLETT.

In closing this report, I acknowledge once more the courtesies and co-operation which I have received from those with whom my work has brought me in contact. The spirit of harmony and ambition in the teaching corps and the active support of committee and parents have never been lacking. Together they have contributed much to the well being of our boys and girls.

Respectfully submitted,

ALBERT L. BARBOUR.

REPORT OF TRUANT OFFICER.

Mr. A. L. Barbour, Superintendent of Schools:

I herewith submit my Fourth Annual Report as **Tenant Officer**, from February 1, 1907, to January 31, 1908.

The whole number of cases reported and investigated were 328, viz:

Wilson School	228
Pond Street School	33
Oak Grove School	13
Beacon School	12
Felchville School	6
West Natick School	4
Harvard School	4
Eliot School	2
Evening School	18
	<hr/>
	328

Of this number 42 were truancy cases. I also visited the factories and found sixty illiterate minors employed.

Respectfully submitted,

JAMES FITZPATRICK,

Truant Officer.

ANNUAL REPORT

OF THE

Board of Sewer Commissioners

AND

Superintendent of Sewers

OF THE

TOWN OF NATICK

FOR THE YEAR ENDING JANUARY 31, 1908

NATICK, MASS.
PRESS OF THE NATICK BULLETIN

SEWER DEPARTMENT, 1907-8

SEWER COMMISSIONERS

FRANCIS BIGELOW, Chairman,
JOHN M. FISKE, DANIEL J. MURPHY

Superintendent of Sewers
PATRICK E. PETTEE.

REPORT OF SEWER COMMISSIONERS.

TO THE INHABITANTS OF THE TOWN OF NATICK:

The Commissioners beg leave to submit their eleventh annual report.

COST OF CONSTRUCTION.

Total cost to town to Feb. 1, 1908	\$286023 11
Received from city of Boston on account of change of plans	18,000 00
Grand total cost	<u>\$304023 11</u>

For a detailed account of the receipts and expenditures of the year, we refer you to the report of the Superintendent.

REMARKS.

We recommend the construction of one bed at the sewer farm the coming year.

FRANCIS BIGELOW,
JOHN M. FISKE,
DANIEL J. MURPHY,
Sewerage Commissioners.

\$11,805 35

REPORT OF SUPERINTENDENT OF SEWER.

To the Sewerage Commisioners of Natick :

GENTLEMEN :

The twelfth annual report concerning the Natick Sewerage system during the year ending Jan. 31, 1908, is respectfully submitted.

APPROPRIATIONS.

For the extension of the sewer and the construction of filter beds, the sum of five thousand dollars was appropriated.

CONSTRUCTION.

The streets sewered were as follows : —

Waban, from Pond southerly to manhole 384 feet.

Concord, from Waban to Western Ave., 417 feet.

Pond, from Roxbury Ave. to Cemetery St., 1193 feet.

Hayes, from So. Ave., southerly to manhole, 131 feet.

For data would respectfully refer you to table of cost of extensions on subsequent page.

Number of miles of pipe laid from 6 to 30 inches in diameter, including brick sewer, to Jan. 1, 1908, 12 miles, 2504 feet.

NEW FILTER BEDS.

One bed was constructed during the year. The necessary

grubbing preparatory to the regular construction work, was done at different times during the season.

This bed is described on the plans as No. 17. The westerly and northerly sides of bed contained a vast amount of surplus sand. The easterly and southerly sides were composed entirely of loam and subsoil, which we were obliged to remove and cart away, substituting therefor clean, fine sand.

Immense quantities of surplus sand were removed and hauled to the two acre bed along the street side, bringing the same up to its proper level, greatly enhancing its value as a filter.

Much hardpan was encountered in different parts of the bed, which, on account of its non-percolating properties, was removed and carted away at much expense, filling in with fine sand. During the process of construction we were obliged to cut into the area adjoining, described on plans as No. 18, from which several hundreds of loads of sand were removed. This latter bed being partly constructed, should be completed the coming year.

The good results obtained in the past by the use of lateral pipes in beds, caused me to continue their use, and accordingly 300 feet of three inch lateral pipes were laid in the construction of this new bed.

We also laid 220 feet of ten inch supply pipe, and had one manhole built. On account of the scarcity of teams at the beginning of the work, we were unable to start in with a full force of men, but as fast as the number of teams increased, so also was the number of men increased, until the maximum of 30 men and 11 teams, single and double were reached.

We have used the new bed at times during the winter and it works admirably. The entire cost of construction of above work was \$2420.99, divided as follows:

Labor	\$1475 25
Teams	812 50
Material, all other expenses	133 49
	<hr/>
	\$2420 29

HOUSE CONNECTION.

Commenced work in this department in April and closed the first week in January. There were 52 connections made during the year.

The total number of connections made with the system at the close of 1907 was 839. Of this number 786 are using the sewer and paying a rental to the town.

Number paying by meter 653. Number paying fixture rates 133.

The total income anticipated from rentals during the year ending December 31st, 1907, is \$6894.80, subject to discounts, etc., an increase of nominally \$500.00, over the previous year.

FLUSHING.

The system was flushed in July and November, the sanitary condition of same being first class.

FILTER BEDS.

Eight beds were under cultivation the past year and a goodly sum was realized from the sale of the corn, which was sold at auction in September. From years of experience, I am led to believe that the planting of the beds each year materially increases the efficiency of the same for filtration purposes, inasmuch as the turning over of the soil occasionally during cultivation, prevents the choking of the filters, allowing the oxidizing organisms to

perform their work, to the end that a pure effluent may be obtained.

I recommend the construction of another bed the coming year.

PUMPING STATION.

The work at the station the past year was especially long and arduous, occasioned by the heavy rains of the Spring months and the excessive rainfall during the months of October, November, December and January, and the pumps were worked to the utmost during those periods.

The sand, silt and other gritty substances carried through the pumps, have a very injurious effect on the working parts.

The crude sewage also contains properties harmful to the working parts, through corrosion, necessitating many repairs and changes, brass replacing iron parts, using judgment and care in the substitution. The large condenser pump was thoroughly overhauled, equipping the same with brass rods and linings, greatly increasing its efficiency.

Considerable attention was given to the tubes of the boilers, some being replaced with new ones, and others repaired. We were obliged to move the shed at the station to another site on account of the seizure of land by the B. & A. R. R. for the widening of their tracks, but the town will be reimbursed for the same, a matter of some \$80.

The boilers were reinsured for 3 years at a cost of \$100.

These changes and repairs while costly were very necessary, but unfortunate in the respect they should occur in the the same year, as our expenditures increased some \$300 over the

previous year. These unusual conditions can never prevail again in the same year. Unusual expenditures classified as follows:

Insurance on boilers, three years	\$100 00
Moving shed at station (town to be reimbursed)	80 00
Rental of land So. Ave., 3 years	51 00
New working parts of pumps and boilers	100 00
	<hr/>
	\$331 00

EXPENDITURES FOR MAINTENANCE.

Outside pumping station, including labor on beds, repairs, flushing, rent of land	\$2013 50
At pumping station, including labor, repairs, alterations, moving of shed	\$3792 30
	<hr/>
Insurance of boilers, etc.	\$5805 80
Net balance of earnings handed to Treasurer	\$982 20

REPORT OF PARK COMMISSIONERS.

Your commissioners herewith submit their third annual report for the year ending January 31, 1908.

During the year no new land has been acquired and the appropriation has been used entirely for proper maintenance of the several parks belonging to the town.

THE COOLIDGE PLAY GROUND.

The swamp at the easterly end has been partly filled and the ground kept in fairly good condition. The co-operation of the boys themselves however is necessary to enable us to keep the ground free from paper and rubbish.

WASHBURN SQUARE.

The grass has been cut and the shrubbery properly cared for.

COMMON.

The care of the Common has proved to be a difficult task and much care and time is needed to keep its surface free from rubbish. The temporary low wooden fence has been repaired several times and should be replaced by a low iron railing of a more permanent character.

DUG POND PARK.

The woods have been free from fire and some work has been done in cleaning out the dangerous low growth at the eastern end of the Pond. A plan of this Park has been made

and filed with the town papers. The Park contains 49 acres of wood land including the islands and 51 acres of water.

COOLIDGE PARK.

This wooded hill has been free from fire, much of the undergrowth having been cut the year before. Very few gypsy moths have been found either in this Park or in the Dug Pond woods.

HUNNEWELL PLAY GROUND.

A faucet for drinking water was introduced for the use of the boys, the hay was cut and the ground kept in fairly good order for athletic sports.

OLD TOWN PARK.

The grass has been kept cut and the shrubberies weeded and kept in excellent condition.

Some damage was done by the bad summer drouth but water has been introduced, so that in the future all parts of the Park can be reached by a hose. A cement drinking fountain was ordered and will be put in place next spring. This fountain should be of great benefit to the increasing number of canoeists on the river.

Respectfully submitted,

HENRY S. HUNNEWELL,
JOHN J. AHERN,
JAMES E. COOPER,

Park Commissioners.

AUDITOR'S FINANCIAL STATEMENT FOR YEAR ENDING JANUARY 31, 1908.

REPORT OF COMMITTEE OF APPROPRIATIONS

To the Citizens and Taxpayers of Natick :

The committee on appropriations met and organized Jan. 15, 1908, and have held several meetings and given one public hearing.

Sub-committees were appointed to consider the needs of the several departments in detail for the purpose of assisting the general committee in its work.

After careful consideration your committee recommend that the following appropriations be made by the town at its annual town meeting.

INTEREST AND LIABILITIES.

General interest account	\$20,039 40
Sinking fund, Bacon school	500 00
Sinking fund, Goodnow school	500 00
Sinking fund, sewer department	1,000 00
One refunded note due State	1,000 00
One note Oak Grove school	1,000 00
One note grade crossing	3,500 00
One note Leonard Morse Hospital	2,500 00
One note Pond street, Harvard street and West Natick schools	1,300 00
One note West Central street, mac- adam road	1,000 00
One note North Main street, macadam road	1,000 00
One note Eliot street, macadam road	1,000 00
One note, Fire Department, 2 horses	600 00
	<hr/> \$34,939 40

ROADS, BRIDGES AND CULVERTS.

THIRTY-FOURTH
ANNUAL REPORT

OF THE

Board of Water Commissioners

AND

Superintendent of Water Works

OF THE

TOWN OF NATICK

For the Year ending January 31, 1908

NATICK, MASS.
PRESS OF THE NATICK BULLETIN

BOARD OF WATER COMMISSIONERS

FRANCIS BIGELOW

JOHN M. FISKE

DANIEL J. MURPHY

GEORGE W. TRAVIS, *Superintendent*

JOHN G. MANUEL, *Assistant Supt.*

H. F. GIBBS, *Engineer*

THOMAS I. ADAMS, *Fireman*

REPORT OF WATER COMMISSIONERS.

To the Citizens of the Town of Natick;

Your commissioners herewith submit the thirty-fourth annual report for the year ending Jan. 31st, 1908.

The Board organized with Francis Bigelow, chairman and Daniel J. Murphy clerk.

The Commissioners again, after marked improvement the past year, urgently requests all consumers of water by meter or or at schedule rates to carefully watch for leaky fixtures. By so doing you will reduce the liability of increased bills and facilitate their adjustment and avoid waste.

Your Commissioners thoroughly endorse the unanimous vote taken at our last town meeting, whereby you voted that all town Departments furnished with water should pay for the same.

We are confident that it will have an economical effect and benefit the taxpayers.

Last spring there was considerable discussion and argument concerning the number of gallons of water pumped, the quantity sold and what became of the balance.

Feeling that the citizens and taxpayers should be given all the light and information obtainable, we requested the superin-

tendent to make a thorough investigation and report the result to the citizens this year.

This has been done.

For further information we refer you to the account of the superintendent.

Respectfully submitted,

FRANCIS BIGELOW,
JOHN M. FISKE,
DANIEL J. MURPHY.

Approved Feb. 11, 1908.

TIMOTHY J. MURPHY,
Auditor.

SUPERINTENDENT'S REPORT

To the Board of Commissioners:—

GENTLEMEN. I herewith submit the thirty-fourth annual report of the Natick Water Works for the year ending Jan. 31, 1908.

The past year has been a busy one for the department. There has been 2320 feet of extensions made and 46 new services put in. The works in general are in good condition, with few exceptions. There are a number of old hydrants which need to be replaced. There should be laid the coming year a 2-inch pipe from the LaGrosse house on West Central street to connect with the main at sewer pumping station, to act as a feeder for West Natick, as now in case of accident to the main west of Oakland street, the citizens of West Natick would be left without water until repairs could be made.

At the request of the commissioners to account for the disposition of the total amount of water pumped for the year ending Jan. 31, 1908, I have to the best of my ability and by actual daily records kept, prepared such an account which will be found in the following pages:

SUMMARY OF RECEIPTS AND EXPENDITURES FROM
FEB. 1, 1907 TO FEB. 1, 1908.

RECEIPTS.

Schedule Water rates	\$4250 29
Semi-annual meter rates	9071 35
Quarterly meter rates	5521 21
Service pipes and repairs	3470 14
Payments on meters	864 52
Summons, sealings and shutting offs	92 75
From loan for extensions	1700 00
	<hr/> \$24970 26

EXPENDITURES.

Street mains, gates and hydrants	\$2190 33
Service pipes and meters	3856 82
General repairs on mains, gates and hydrants	857 61
Running expenses outside pumping station	3972 77
Running expenses at pumping station	3735 01
Interest on bonds and notes	<hr/> 5763 00
	<hr/> \$20,375 54

BILLS RECEIVABLE FEB. 1, 1908.

Schedule water bills	\$2168 04
Semi-annual meter bills	\$2038 20
Quarterly meter bills	1302 22
Service pipes and labor	1239 60
Payments on meter	174 92
Summons	50 60
	<hr/>
	\$6,973 58

COST OF CONSTRUCTION.

To Feb. 1, 1907	\$452343 19
Street mains, gates and hydrants to Feb. 1, '08	1691 54
Service pipes and meters	3856 82
	<hr/>
	\$457,891 55
Less cash received for services and meters	4334 66
	<hr/>
Cost of works to Feb. 1, 1908	\$453,556 89

BONDS AND NOTES AGAINST WATER DEPT.

Note due March 1, 1908	\$6000 00
Note due July 1, 1908	6000 00
Note due Feb. 1, 1909	4800 00
Bonds, new supply	140,000 00
Note to cover extensions	1400 00
Note to cover extension	800 00
	<hr/>
	\$159,000 00

EXTENSION OF MAIN PIPES, GATES AND HYDRANTS
TO FEB. 1, 1908.

Parmenter Ct., 182 feet 2 inch-pipe	\$68 53
Washington Ave., 75 feet of 2-inch pipe	37 60
Broad Ave., 15 feet 2-inch pipe	10 30
Roxbury Ave., 1 foot 7 in. of 6-inch pipe, 2 feet 7 in. of 4-inch pipe and 353 feet of 2-inch pipe	167 18
Kinsman Pl., 206 feet of 6-inch pipe	265 27
Brooks St., 455 feet of 2-inch pipe	400 68
Farwell St., 831 feet of 4-inch pipe	679 28
Pond St., 12-inch gate	45 72
Bacon St., hydrant	16 98
	\$1669 54

	Miles	Feet
Miles of pipe from 3·4 inch to 18 inches reported to Jan. 1, 1907	42	4915
Addition in 1907		2320
Total	43	1955

SUMMARY OF WATER PUMPED FROM JAN. 31ST,
1907 TO JAN. 31ST, 1908.

Passed through meters	69,375,773
Sewer Dept. through meters	559,957
“ “ flushing, (reported by card)	1,085,740
Road Dept. sprinkling streets (reported by card)	2,531,431
“ “ steam roller, (reported by card)	32,400
“ “ flushing drain, (reported by card)	88,704
“ “ building streets, (reported by card)	22,860
“ “ street fountains, estimated	4,000,000
“ “ drinking fountain, metered	33,340
Fire Dept. extinguishment of fires (reported by card)	109,256
Tree Warden, spraying trees (reported by card)	18,500
Mains emptied for general repairs, leaks on mains and services, puddling trenches, blows, flushing mains shop uses and testing meters	82,607,036
Under-registration of meters 3 per cent of metered	
Pump slip and station uses	2,057,207
water	2,081,273
Schedule water takers estimated	28,710,000
	193,313,476
Total water pumped during this time	205,720,790
Water not accounted for	12,389,314

LEAKS ON MAINS IN 1907.

Caused by defective pipe	5

SUMMARY OF STATISTICS

FOR THE YEAR ENDING JAN. 31ST. 1908.

IN FORM RECOMMENDED BY THE NEW ENGLAND WATER WORKS
ASSOCIATION.

GENERAL STATISTICS.

Population by Census of 19 , 9609

Date of construction, 1874

By whom owned, Town

Source of supply, Covered well

Mode of supply (whether gravity or pumping) Pumping

PUMPING STATISTICS.

- 1 Builders of Pumping Machinery, Barr Pumping Eng. Co. & Blake Co.
- 2 Description of fuel used : *a.* Kind, George's Creek ; *b.* Brand of coal, Bitumous and Anthracite ; *c.* Average price of coal per gross ton, delivered, \$4.50 and \$2.50 ; *d.* Percentage of ash, 10½% ; *e.* Wood, price per cord, \$.400.
- 3 Coal consumed for year, 581,500 lbs.
- 4 [Pounds of wood consumed] ÷ 3 = equivalent amount of coal, 383 lbs.

- 5 Total equivalent coal consumed for the year = (3) + (4),
581883 lbs.
- 6 Total pumpage for the year, 205,720,790 gallons, (without)
allowance for slip.
- 7 Average static head against which pumps work, 178 feet.
- 8 Average dynamic head against which pumps work, 193 feet.
- 9 Number of gallons pumped per pound of equivalent coal
(5), 526.
- 10 Duty=gallons pumped (6) \times 8.34 (lbs.) \times 100 \times dynamic
head (8) Total fuel consumed (5)=64,209,388

Cost of pumping, figured on pumping station expenses, viz. \$
3,735.01

- 11 Per million gallons pumped, \$14.81.
- 12 Per million gallons raised one foot (dynamic), \$.0075.

RECEIPTS.

From ordinary (maintenance) receipts,	\$4427 41
From extraordinary receipts (bonds, etc.)	1700 00
Total	<hr/> \$6127 41
A. Fixture rates,	\$ 4250 29
B. Meter rates.	14592 56
Total from consumers,	<hr/> \$18,842 85
Total	<hr/> 24,970 26

EXPENDITURES.

AA. Operation (management and repairs),	\$7,733. 39
DD. Interest on bonds,	5,763 00
GG. Extension of mains,	2,190 33
HH. Extension of services,	4,688 82

KK. Total construction,	\$20,375 54
Total balance	\$4,594 72
	<hr/>
N. Total	\$24,970 26
Disposition of balance \$4594 72 to sinking fund	
Net cost of works to date	\$453,556 89
Bonded debt at date	159,000 00

STATISTICS OF CONSUMPTION OF WATER.

- 1 Estimated population on lines of pipe, 9609.
- 2 Estimated population supplied, 9609.
- 3 Total consumption for the year, 205,720,790 gallons.
- 4 Passed through meters, 69,935,730 gallons.
- 5 Percentage of consumption metered 34 1-6 percent.
- 6 Average daily consumption, 563,618 gallons.
- 7 Gallons per day to each inhabitant, 58 1-20 gallons by total pumpage.
- 8 Cost of supplying water, per million gallons, figured on total maintenance (Item CC), \$37.24.
- 9 Total cost of supplying water, per million gallons, figured on total maintenance + interest on bonds, \$65.00.

STATISTICS RELATING TO DISTRIBUTING SYSTEM.

MAINS.

- 1 Kind of pipe, C. I. and Cement Ld.
- 2 Sizes, from 1 inch to 18 inch.
- 3 Extended 2320 feet during year.
- 4 Total now in use, 43 miles and 1955 ft.
- 5 No. of hydrants added during year, public, 3.
- 6 No. of hydrants, public, now in use, 210.
- 7 No. of blow-offs, 6
- 8 Range of pressure on mains, 60 to 90 lbs.

SERVICES.

- 9 Kind of pipe, galv. iron, lead and cement lined.
- 10 Sizes $\frac{3}{4}$ in. to 2 inch.
- 11 No. of service taps added during year, 46.
- 12 Number now in use, 2018.
- 13 Number of meters added, 84.
- 14 Number now in use, 1257.
- 15 Percentage of services metered, 62 1-3 %
- 16 Percentage of receipts from metered water, 77 5-10 %
- 17 Number of motors and elevators added, none.

REMARKS

The Overseers of Poor are pleased that in their report this year they can show a great improvement over last year as far as expenditures are concerned.

The department has succeeded in cutting down the expenses over \$4000.00 as compared with last year. This is mainly due to the prevailing good times of the greater part of the year. Hard times will always bring applicants to the Overseers of Poor, while in good times the poor people have no use for them. The Farm shows up to the best advantage this year, the expense being some \$800.00 less than last year. This is mostly due to the good judgment and management of the new Warden and Matron, Mr. and Mrs. B. J. Carroll, who were appointed last April, and the Overseers of Poor feel much pleased with the result of their labors.

Considerable and much needed repairs have been made at the Farm and more are needed the coming year.

The new main building should be shingled although it is almost a new house, but the shingles used were of a very poor quality and very poorly laid down, a heavy wind always blowing off a great many.

The cost for outside poor has also been reduced some \$700.00 from last year, the saving in Hospital bills alone being \$500.00. These bills are mainly contracted in other cities and towns and the Overseers of Poor have no choice in the matter but to pay the bills if the persons sent there have a settlement in Natick and are unable to pay. At present there are less

people receiving aid than for many years past and we hope to keep the expenses down as low as possible the coming year.

The Overseers of the Poor would again invite the citizens of Natick to visit the farm more extensively and acquaint themselves with the working of it. Considerable adverse comment is always made about the farm and its inmates, but it is made mosrly by persons who are almost total strangers up there and who have but a very superficial knowledge of the affairs. People who have been up there often and seen the whole working of it, are full of praise of the place and its management.

Respectfully,

PATRICK J. MURPHY, *Chairman.*

WILLIAM F. FINN,

CHARLES L. KOPFF, *Clerk.*

ANNUAL TOWN MEETING.

MARCH 2, 1908.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

MIDDLESEX SS.

To any Comstable of the Town of Natick in said County.

GREETING :

In the name of the Commonwealth of Massachusetts you are hereby required to notify the qualified voters of said town of Natick to meet,

The voters of Precinct No 1 at Concert Hall, Natick.

The voters of Precinct No. 2 at School House Hall, South Natick.

MONDAY, MARCH 2, A. D. 1908.

at 6 o'clock a. m., at which hour in both Precincts of said Town of Natick the poll will be opened and will remain open continuously until 4.30 p. m., of said day, when it may be closed unless the meeting so assembled in either of said Precincts shall otherwise determine for such Precinct, during which time the aforesaid qualified voters of said Town may bring in their ballots to the Election officers, duly appointed

and sworn for said precincts of said Town of Natick, in said meetings so assembled, for

One Town Clerk, one Town Treasurer, three Selectmen, one Auditor, one Highway Surveyor, one Tree Warden and six Constables, all for one year; also one Assessor of Taxes, one Overseer of the Poor, one Water Commissioner, one Sewer Commissioner, one Sinking Fund Commissioner, one Park Commissioner, two members of the School Committee and one member of the Board of Health, all for three years; also five Trustees of the Morse Institute for five years; also one Trustee of the Leonard Morse Hospital for seven years; also one Trustee of the Leonard Morse Hospital for the unexpired term (five years) of Edward Clark, resigned; also to answer by the Australian System of balloting the following question: "Shall Licenses for the Sale of Intoxicating Liquors be Granted in this Town?"

All ballots will be furnished by the town and the election will be conducted according to the Australian system, as enacted in Massachusetts, and in conformity with the Election Laws of said Commonwealth.

You are further required to notify the aforesaid qualified voters of said Town of Natick to meet in the Town Hall, Clark's Block, Natick,

THURSDAY, MARCH 12, 1908

at 7.30 o'clock, p. m., then and there to act on the following articles:—

Art. 1 To choose by ballot a Moderator to preside in said meeting.

Art. 2 To see how much money the town will grant for interest, existing liabilities and sinking funds; for roads, bridges and culverts; for sidewalks and crosswalks; for assisting and maintaining the poor; for schools, school supplies and furniture, repairing school houses and evening schools; for the fire department and repairs to engine houses;

for police and watchmen; for the support of the Morse Institute; for collection and abatement of taxes; for paying town officers; for military aid and assisting poor soldiers, sailors and their families; for decorating soldiers' graves; for lighting streets and public places; for maintenance of the sewer system; for repairing and improving town property; for winding and repairing town clocks; for expenses of the tree warden, including sums required for extermination of the gypsy and brown-tail moth; for rent of town hall, Armory of Co. L, and office room for town officers; for suppressing the illegal sale of intoxicating liquors; for necessary town uses.

Art. 3. To see if the town will authorize its Treasurer, with the approval of its Selectmen, to borrow money temporarily, in anticipation of the taxes for the municipal year 1908-1909, said money to be payable out of the taxes of said year, and if so, in what manner and how much?

Art. 4. To see how the town will have its taxes for the year 1908 collected, and choose a Collector of Taxes and fix his compensation.

Art. 5. To see if the town will appropriate a sufficient sum of money to defray the cost of extending and completing the work of macadamizing North Main street in Felchville, and authorize the Treasurer to borrow the money so appropriated.

Art. 6. To see what sum of money, if any, the town will appropriate to macadamize South Main street from Washburn square to the Poor Farm hill.

Art. 7. To see if the town will vote to instruct the Board of Water Commissioners and the Board of Sewer Commissioners, in joint session, to elect by majority vote one man to act as Superintendent of the Water and Sewer Departments of Natick for the ensuing year and thereby save the town \$1000 or more per year.

Art. 8. To see if the town will vote to petition the Honorable Senate and House of Representatives of the Commonwealth of Massachusetts, in General Court assembled, to enact Legisla-

tion, to consolidate the Board of Water Commissioners and the Board of Sewer Commissioners of the Town of Natick, and for like legislation, or otherwise act thereon.

Art. 9 To see if the town will appoint a Committee of 5, to serve without compensation, said Committee to make an investigation of the Water Department, with power to employ experts, and appropriate a sum of money to be expended under the direction of said Committee, or otherwise act thereon.

Art. 10 To see if the town will vote to authorize the Water Commissioners to sell a parcel of land with the dwelling house thereon situated on the southerly side of Pond Street, Natick and being a portion of the premises formerly used for pumping station purposes by said town; said parcel is bounded and described as follows:—Beginning at a stone bound on said Pond Street at land of J. T. Mahard, thence running westerly by said Pond Street 164 feet to the gateway; thence southerly 60 feet; thence easterly 169 feet to said land of Mahard; thence northerly by said last named land 130 feet to the point of beginning; or vote to authorize as aforesaid the sale of any part of said premises; and authorize the proper deed to be executed confirming such sale; or otherwise act thereon.

Art. 11 To see if the town will authorize and instruct the Water Commissioners to release Edward A. Goddard from the contract made with said Commissioners in 1899.

Art. 12 To see if the town will instruct the Water Commissioners to extend the water pipes from opposite the residence of Edward A. Goddard on Coolidge St. to School St. extension and thence sontherly to the residence of the Misses Susan and Ellen Flynn on said street, or otherwise act thereon.

Art. 13 To see if the town will vote to instruct its Water Commissioners to extend the water pipe on Water street South Natick from the residence of Mrs. Martin Heinlein to the end of the street opposite the residence of Adolph Meyers, or otherwise act thereon.

Art. 14 To see if the town will instruct the selectmen to

apply to the Probate Court for leave to sell such part of the estate left to the town by Collins Morse as is required by the Boston & Albany railroad for the widening of its tracks and roadbed.

Art. 15 To see if the town will authorize the selectmen to compromise the claim of the town against the Boston & Albany railroad for land taken for the widening of the tracks and road bed of said railroad, or otherwise act thereon.

Art. 16 To see if the town will vote to place a fire alarm box on Leach Lane near the residence of Jeremiah B. Sullivan and grant \$175 for that purpose.

Art. 17 To see if the town will vote to place a fire alarm box at the corner of Fisher and North Main streets and appropriate a sum of money for said purpose or otherwise act thereon.

Art. 18. To see if the town will vote to furnish coal for the three independent hose houses, and grant not exceeding \$60 to pay for the same.

Art. 19. To see if the town will vote to pay for Concert Hall one night in this year, and grant the Fire Department the free use of said hall for that night.

Art. 20. To see what sum of money, if any, the town will appropriate to settle claims for damages pending against the town in which the claimants are willing to accept the sums recommended by the Selectmen.

Art. 21. To see if the town will vote to accept the extensions of Shattuck Street and Oakland Street as the same have been laid out and filed by the Selectmen.

Art. 22 To see if the town will authorize the Water Commissioners to lay pipe in certain cases where, in their judgment, it is for the interest of the town so to do, and authorize the Treasurer to borrow not exceeding \$3,000 for that purpose.

Art. 23 To see if the town will authorize the Sewer Commissioners to extend the sewerage system in certain cases where, in their judgment, it is for the interest of the town so to do; to build one more sewer bed; and authorize the Treasurer to borrow

not exceeding \$5,000 for said purposes, in accordance with the provisions of Chap. 328, Acts of 1902.

Art. 24 To see how much money the town will appropriate for constructing a suitable bridge on South street near the Stillman Place.

Art. 25 To see how much money, if any, the town will appropriate for the extension of the underdrain system of street drainage.

Art. 26 To see if the town will authorize the Highway Surveyor to construct a sidewalk on the westerly side of Park avenue and Prospect street from North Main street to Worcester street and appropriate a sum of money sufficient to pay for the same.

Art. 27 To see if the town will vote to change the name of Prospect street to Park avenue.

Art. 28 To see if the town will instruct the Highway Surveyor to construct a concrete cross-walk from the concrete walk on Middlesex avenue to the Boston & Albany station and appropriate money for the same or otherwise act thereon.

Art. 29 To see if the town will vote to instruct our Representative in the General Court to endeavor to secure legislation authorizing the Town of Natick to drain the Union Square district into the roadbed channels of the New York Central railroad.

Art. 30 To see if the town will vote to erect and maintain street lights as follows : 2 on Kansas street, 2 on Bacon street, 1 on Second street, 1 on Jackson Court; additional lights on Washington Ave, between Lagrange street and the Saxonville Branch R. R. crossing; 1 light at the north end of Rice street; 1 on Clarendon street near the residence of E. D. Murray, 1 on Water street, So. Natick, near the residence of Adolph Meyers; and appropriate money to pay for same.

Art. 31 To see if the town will vote to place and maintain one electric incandescent light on the west side of the Congregational Church tower over the clock for the purpose of seeing the time at night and appropriate money to pay for the same.

Art. 32 To see if the town will appropriate a sum not exceeding \$300.00 for the support of evening schools for instruction in cooking and sewing, under the provisions of Chapter 505 of Acts of 1906; or take any other action relative thereto.

Art. 33 To see if the town will appropriate the sum of \$300 to build a gate-way and fence around Glenwood Cemetery, So. Natick, or otherwise act thereon.

Art. 34 To see if the town will extend the sewer system on Union Street as far as Milk Street, so called, appropriate money to pay for same and authorize the Treasurer to borrow the money so appropriated.

Art. 35 To see if the town will appropriate a sum not exceeding twenty-five dollars to reimburse Hose Company No. 7, for money expended in necessary grading of the grounds of said Company, or otherwise act thereon.

Art. 36 To see if the town will appoint a committee of five to consider the advisability of adopting a set of plumbing regulations under the provisions of Chapter 103 of the Revised Laws, said committee to report at the next annual town meeting, or otherwise act thereon.

Art. 37 To see if the town will take preliminary action to provide a new building in place of the Wilson School Building; appoint a committee who shall report plans and estimates, together with their recommendations, at the Annual Town Meeting in 1909; or take any other action to provide larger and better accommodations for the Centre District.

Art. 38 To see what sum of money the town will appropriate to carry out the purpose of Chap. 502, Acts. of 1906 relative to the appointment of School Physicians.

Art. 39 To see if the town will pay to Mrs. Adaline R. Woodman \$250 for damages, sustained by her by reason of the construction of the state highway from Natick to South Framingham; pass any vote or take any action relative thereto.

Art. 40 To see if the town will vote to increase the pay of the Patrolmen to \$2.50 per day and the Chief of Police \$3 per

day, and appropriate money to meet such increased pay, or otherwise act thereon.

Art. 41 To see if the town will vote to amend Section 16 of the Town By-Laws with reference to collection of taxes to read as follows:

All taxes shall become due and payable on the first day of September in each year and for all poll taxes remaining unpaid after September fifteenth first following their assessment the Collector shall issue his summons to every such delinquent taxpayer with costs and for all other taxes remaining unpaid after November first following their assessment the collector shall issue his summons to every such dilinquent taxpayer with costs; and if the tax is not paid on or before the first day of December following said first day of November, 5 per cent. per annum shall be charged and collected upon such taxes after said first day of December to time of payment, as interest thereon. Provided, however, no real estate shall be sold for non payment of taxes before the first day of February next following the assessment thereof. All taxes upon real estate remaining unpaid on said first day of February, the Collector shall proceed to collect by sale or otherwise and shall complete his collections or make sale of such estates on or before the first day of May following the assessment thereof. The Collector shall have and possess all the authority, powers and privileges delegated to Town Treasurers when they are made Collectors of Taxes.

Art. 42 To see if the town will appropriate the sum of three hundred and sixty-seven dollars to abate the tax levied on the Bacon Free Library by order of the Tax Commissioner in 1907; the Library being free for the benefit of all inhabitants of Natick.

Art. 43 To see if the town will authorize the Water Commissioners to make a contract with the Town of Wayland for a supply of water for the use of said Town of Wayland and its inhabitants for the extinguishment of fires and for domestic purposes, from the Natick pipes and water supply, for a period of not more than six months.

Art. 44. To see if the town will authorize the Water Commissioners to apply to the Legislature for an act authorizing the Town of Natick to furnish from its pipes and water supply to the Town of Wayland, a supply of water for the use of said Town of Wayland and its inhabitants for the extinguishment of fires and for domestic purposes, and to contract with the Town of Wayland for such supply of water on such terms as may be agreed upon between said towns.

Art. 45 To see if the town will appropriate a sum of money to be used in repairing a portion of the banks of Pegan Brook near the premises of Patrick Beatty, or otherwise act thereon.

Art. 46 To see if the town will give any instructions to the Board of Health relative to enforcing the law whereby abutting owners of real estate along the lines of the sewer system of Natick may be compelled to make full connection with said sewer.

Art. 47 To see if the town will direct the Board of Assessors to employ a competent engineer to make a map of the town, or a part of the town, according to the block system, for the use of the Assessors, and appropriate money to pay for the same or otherwise act thereon.

Art. 48 To see if the town will instruct the Board of Assessors to publish, not later than Nov. 1, 1908, a complete list of the assessed valuations of all real and personal estate taxable by the Assessors, grant money to pay for the same or otherwise act thereon.

Art. 49 To see if the town will instruct the selectmen to employ public accountants to install a system of accounts and reports in conformity with the Uniform System recommended by the National Municipal League at an expense not to exceed \$500, appropriate money to pay for the same or otherwise act thereon.

Art. 50 To act on the reports of the various town officers as printed and to hear and act on the report of all committees chosen on town affairs and to choose all necessary committees for

the ensuing year. Also to choose Fence Viewers and Field Drivers.

And you are directed to serve this warrant by posting attested copies thereof at each of the post-offices in said Natick, and at the following public places in said town, to wit; Selectmen's room, street entrance to town hall, Natick; engine house, South Natick; hose 4 House Felchville; and at or near Felch Bros. factory North Natick, seven days at least before said March 2, 1908 Also by causing an attested copy of said warrant to be published once in the newspaper called the "Natick Bulletin," said publication to be two days at least before the day appointed for said meeting.

Hereof, fail not, and make due return of this warrant, with your doings thereon, to the Town Clerk, at or before the time appointed for holding said meetings.

Given under our hands this 13th day of February, A. D. 1908.

FREDERICK S. LOKER,

MICHAEL F. McGRATH,

GEORGE NUTT,

Selectmen of Natick.

A true copy: Attest:

DAVID J. CHURCH,

Constable of Natick.

Approved Feb. 1908.

TIMOTHY J. MURPHY,
Auditor.

SELECTMEN'S REMARKS

STREET RAILWAYS.

The street railway matters were one of the hard problems that the Board had to contend with during the past year, for soon after their entry into office the usual petitions of the Natick and Cochituate Street Railway Co., were presented for the relocation of tracks on North Main Street, the extension of its double tracks on East Central Street, and permission to act as common carriers of baggage and freight.

Public hearings were advertised and held. The Railroad Company not willing to relocate the tracks on North Main Street as desired by the Board they petitioned the Railroad Commissioners to compel the Railroad Company to do the work as laid out by the town,

A hearing was held and the Railroad Commissioners ordered the Railroad Company to lay the tracks as petitioned for new petitions were presented and the road now willing to give to the Citizens of the town their rights, which they have been contending for, for years, the Board of Selectmen granted them the privilege to act as Common Carriers of baggage and freight, to extend their double tracks on East Central Street and to relocate their tracks on North Main Street as petitioned for. Also petition of Middlessex and Boston Street Railway Co., for change and alterations of tracks on Water and Eliot streets.

Report of approval of Railroad Commissioners upon petition of Boston and Worcester Street Railway Co., for location of

tracks granted said Company, July 5, 1905 received. Time extended to January 1, 1909 to Boston and Worcester for completing work on order granted said Company July 5, 1905.

Petitions were received from the Natick and Cochituate Street Railway Company for location of its tracks through Main Street from Boston and Albany bridge connecting at Common with Boston and Middlesex Street Railway Co.

Petitions received from Middlesex & Boston Street Railway Co., for an extension of its double tracks from corner of Union and East Central Streets to Common.

For an extension of its double tracks from car-barn on East Central to corner of East Central and Union Streets.

For double tracks from Dell Park gate westerly for 1200 feet.

Hearings were advertised and held. All petitions were dismissed with exception of the one for double tracks from Dell Park Gate westerly for 1200 feet.

POLE LOCATIONS

Many applications were received during the year from the New Eng. Tel. & Tel. Co., and the Edison Electric & Ill. Co.

Locations were granted only in case of necessity as it was the desire of the Board to keep the poles out of the highways. Public hearings were held as required by law.

SPECIAL TOWN MEETING.

On petition of citizens a special meeting was held Sept. 4, 1907, and a vote was passed that the Board of Selectmen request Dana Malone, the Attorney-General, to take action against the executor of the will of the Maria Hayes Estate and the sureties on his bond. Matter still pending

On articles in warrant the following votes were passed :

To instruct the School Committee to re-open the Southville School, beginning with the September term.

Voted, an appropriation of \$600 for the purchase of two horses for Fire Department.

Voted, that the Selectmen, in behalf of the town, release by proper instruments of conveyance the restrictions and conditions contained in two deeds, as follows :

Deed of Town of Natick to James W. Morse, parcel of land on Adams street.

Deed of Town of Natick to Leonard Winch of a parcel of land on Railroad avenue.

Voted, that the Selectmen grant no further privileges to Natick & Cochituate Street Railway Co. until it moves its tracks on North Main Street, and to use all lawful means to compel them.

GYPSY AND BROWN TAIL MOTH.

During the year the work of exterminating these pests has been very successful under the direction of our local commissioner, Mr. H. S. Hunnewell. The work has shown for itself, for the ravages which these moths have made upon our trees in former years was hardly apparent this year. Under a special act of the Legislature all owners of property are required to clear their premises of these moths and if done by the commissioner the cost of such work, not exceeding one half of one per cent of the valuation, is to be collected the same as taxes from such owners. A new sprayer and 750 feet of hose was purchased this year at a cost of \$626.25, which means a saving to the town, the work in former years being done by outside firms. The work has been very extensive the whole year, and we would urge upon property owners to take a more active interest in the work. We received from the state for the work done, \$2928.64.

PEGAN BROOK.

The Board of Health complained of the filthy and bad condition of the south arm of Pegan brook, and it was ordered to

be cleaned and put in good order under their direction. Beside cleaning out it was necessary to build a bank wall in one section; \$25450 was taken from the miscellaneous account for this work.

F. S. LOKER,
GEORGE NUTT,
M. F. McGRATH,
Selectmen of Natick.

- August 27. Station 34, 12.20 P. M. Grass land off Union street. Owned by H. T. Boissay. No damage.
- August 28. Station 46, 7.50 P. M. Two and one-half story frame dwelling, Bacon street. Owned and occupied by the Estate of Esther Peoples. Damage to building \$129.50, damage to contents \$46.85. Cause, overheated stove.
- September 7. Station 25, 10.40 P. M. Call to Sherborn.
- September 24. Station 7, 7.30 P. M. False alarm.
- October 12. Telephone call 7.15 A. M. Pile of sleepers off Washington avenue.
- October 23. Telephone call, 11.15 A. M. One-story frame henhouse, West Central street. Owned by Dr. Geo. F. Beard. Damage to building \$35. Cause, sparks from bonfire.
- October 27. Still, 7.10 P. M. Two-story frame dwelling, North Main street. Owned and occupied by Edward Whelan. No damage. Cause, exploding lamp.
- November 1. Station 25, 9.25 P. M. Two and one-half story frame dwelling off Summer street. Owned by E. H. Walcott, occupied by A. B. Underwood. Damage to building \$95, damage to contents \$650. Cause, unknown.
- November 2. Station 25, 6.20 P. M. Two-story frame building, South Main street. Owned by E. P. Brennan. No damage.
- November 3. Telephone call, 3.10 P. M. One-story frame building, South avenue. Owned by Nathaniel Conant. No damage.

November 3. Still, 3.30. Two-story frame building, South Main street. Owned by E. P. Brennan. No damage.

November 3. Telephone call, 4.10 P. M. Two-story frame dwelling, South Main street. Owned by Anna Moran, occupied by Mrs. McManus. Damage to contents \$15. Cause, unknown.

November 5. Station 25, 11.57 P. M. One-story frame shed, Court street. Owned by Michael Quick. Damage to building \$10. Cause, supposed incendiary.

November 22. Station 46, 2.05 P. M. One and one-half story frame dwelling off Fisher street. Owned by J. A. D. Mills. Damage to building \$700, damage to contents \$200. Cause, unknown.

November 27. 5 A. M. One and one-half story frame dwelling, Hartford street. Owned by Mary Tirrell, occupied by F. A. Wheeler. Damage to building \$800, damage to contents \$400. Cause, defective chimney.

December 5. Still, 5.55 P. M. One-story shed, South Main street, rear of Anna Moran's house. No damage.

December 14. Automatic call. 5.50 P. M. Four-story frame factory building, Spring street. Owned by W. H. Nutt, occupied by Murphy Boot & Shoe Co. No damage.

December 24. Station 27, 10.55 P. M. False alarm.

December 27. Automatic call, 7.55 P. M. Four-story frame factory building, North avenue. Owned by the Pratt Reid Shoe Co. No damage.

January 5. Still, 8.25 A. M. One and one-half story frame dwelling, Worcester street. Owned by J. M. Brown. No damage. Cause, burning chimney.

January 13. Still, 2.25 P. M. Grass land, Middlesex avenue on line of B. & A. R. R. No damage.

January 19. Still, 5.30 P. M. Woodland off Kansas street.

Owned by Metropolitan Water Board. No damage.

January 19. Telephone call, 6.46 P. M. Grass land off Morse street. Owned by the Estate of W. L. Coolidge. No damage.

January 22. Telephone call, 12.50 A. M. Grass land, Pond street. Owned by C. W. Johnson. No damage.

January 23. Still 9.55 P. M. Woodland off Kansas street. Owned by Metropolitan Water Board. No damage.

January 31. Still, 9.10 A. M. Two-story frame dwelling; Worcester street. Owned and occupied by Sidney E. Colburn. No damage. Cause, burning chimney.

REPORT OF SUPERINTENDENT OF FIRE ALARM BOARD OF ENGINEERS.

Gentlemen:—I respectfully submit my Sixth Annual Report of this department for the year ending January 31, 1908.

Forty-two bell alarms were transmitted, a decrease of seven over last year. The fire alarm apparatus in circuit remains as last report with one additional direct acting tapper which was placed in the residence of Capt. F. J. McCordick.

Outside of tree trimming and testing of boxes the repairs on system for the last year consisted of the changing of that portion of Cir. No. 4 running over private property from the foot of Grant street to Union square, to new poles on Grant street connecting at East Central.

Also the replacing of 550 feet of old iron wire on Speen street with new triple braid weatherproof insulated wire.

Total number of blows on system for year 2,365, divided as follows:

For test,	623
For curfew,	364
For fire,	1,338
For no school signals,	24
For broken zincs,	6
For lightning,	3
For cross with live wire,	3
For cause unknown,	4
Total,	2,365

Three test blows and one curfew signal were omitted

Expenditures on System for Year Ending January 31, 1908:

For repairs,	\$54.43
For battery supplies,	166.55
For incidental expenses,	57.03
Total,	<u>\$278.01</u>

Respectfully submitted,

C. G. JACQUES,
Supt. Fire Alarm.

FINANCIAL STATEMENT

ORDERS DRAWN.

From appropriation of \$7150 for pay-roll and running expenses,

1.	J. H. Kazar, services,	\$5.00
2.	C. G. Jacques, services,	70.00

Approved, February 5, 1908.

TIMOTHY J. MURPHY, *Auditor,*

REMARKS.

No fires of special note have occurred the past year.

The total damage for the year \$7,704.52, being the smallest loss since 1903.

The buildings connected with this department are in first-class condition, all the requirements as recommended in last report being carried out, showing a balance of \$3.01, of the special appropriation of \$941.00.

The engine at South Natick was thoroughly overhauled, fitted with new boiler, thoroughly tested and accepted by the Board, at a cost of \$1070, leaving a balance of \$30 of the special appropriation of \$1100.

The new hose purchased from the special appropriation of \$600 was from the Empire Rubber Co. of Trenton, N. J., which come with a four year guarantee and is highly recommended, the balance of this appropriation being \$12.

The horses purchased have proved satisfactory, the cost of same covered by appropriation.

The regular appropriation for running expenses and payroll is within the appropriation. We have cash due from the Police Department to the amount of \$44.50 which, if paid, would cover all unpaid bills, amounting to \$20.73, which would have left us a balance of \$24.28.

On starting the boiler this fall we found that it was not safe to run, the bottom of the boiler at return end had corroded to an extent that all the water would run out through the night; we had boiler inspected by the state authorities and they reported back to make several repairs which would have

cost \$150. As this boiler had been in commission since the house was built and a second-hand boiler when installed, we deemed it advisable to put in a new boiler, which was done at a cost of \$325, contract let out to Fittz & Barker.

This expense of \$325 we intended to put into repairs on Hose 1, 3, and Ladder 1, which would amount to about \$300 and would have given us a larger balance to show for the year.

As to the condition of hose we would state that we have about 2000 feet out of a total of 10,250 that is fit for steamer pressure. The past year we have discarded 1000 feet, which will offset the 1000 feet purchased last spring. There were 650 feet discarded at South Natick, 250 feet of which was given to the Morse Hospital to use in case of fire, one length was sold for which we received \$1, the balance 350 feet is at the South Natick station, 250 feet was discarded at the Felchville station and used on floor of apparatus room, 100 feet discarded at Central station which is in stock, making the total of 1000 feet discarded the past year.

As to the item under receipts and expenditures of \$29 received from Sherborn fire, we would state that the total bill for that fire was \$85; out of this amount we paid twenty-five men \$2 each, chief engineer and engineman of Engine No. 1, \$3 each, making a total of \$56; the balance of bill we turned over to the treasurer as payment for apparatus and horses.

We have recommended to your committee that an appropriation of \$600 be made for new hose and \$7,150 for running expenses and payroll.

Respectfully submitted,

WM. E. DANIELS, *Chief.*

J. M. BURKE, *Clerk.*

†Elected December 8.

REPORT OF TRUSTEES OF THE LEONARD MORSE HOSPITAL.

The trustees of the Leonard Morse Hospital have the honor to present their fifteenth Annual Report for the year ending December 31st, 1907.

The year has been a fruitful one in efforts and the trustees are glad to say that it has been quite fruitful also in beneficial results to the hospital. In the last report it was stated, "that the business coming to it and the demands made upon it have constantly increased and are constantly increasing so that to-day it is not large enough and has not facilities enough to meet the demands made upon it and it must either be enlarged by adding to it or some of the demands made upon it must remain unanswered." Soon after the publication of this report an appeal was sent out quite generally in these words:

"The Leonard Morse Hospital,
April 10, 1907.

The demands made upon our hospital have increased to such an extent that they cannot longer be met without additions to it. There is immediate and pressing need of a nurses home, a laundry, an operating room and an additional ward for patients. The money to pay for these additions is not at hand. In such a case necessity compels an appeal to the charitable—to the well-to-do and right-minded men and women who never fail to recognize their charitable duties and obliga-

tions to the community in which they live. You are therefore cordially invited to meet the trustees and others invited like yourself in Clark's South Hall, Wednesday evening, April 17, 1907 at 7.45 o'clock to hear and make such suggestions and assist in adopting such means as shall be thought best to adopt for raising the money required."

In answer to this call a goodly number met and a disclosure of the conditions existing and a discussion of its needs and the means to be adopted for its relief were had, after which, a committee with Frank Atkinson, Chairman, Clarence A. Eldridge, Treasurer, and John H. Craig, Secretary, was appointed to solicit funds. This committee was subsequently greatly enlarged, a careful and systematic canvass of the town made, and \$12,171.80 raised; and there are a few prominent and wealthy men left who have not yet made any contribution. Of the amount thus given the children of the late Horatio Hollis Hunnewell gave \$7,500.00, which, added to the fifteen thousand dollars given by Mr. Hunnewell, with interest on it since his death \$4,193.60, and the gift of Mrs. Shaw and interest \$210.16, makes \$26,903.70, a sum sufficient to pay the cost of the NURSES' HOME. Under the circumstances it would seem but an act of simple justice that it be called the Hunnewell Home and a tablet placed in it with this inscription on it:

"THE HUNNEWELL HOME,
The Gift of Horatio Hollis Hunnewell
and his Children."

It is perhaps not the time or the place to indulge too freely in praise, nor to offend against delicacy by too much elaboration, but the magnitude of the gift is such that the mere mention of it does and must always awaken in the breast of every beneficiary of the hospital and every person in sympathy with its mission, a deep sense of the obligation arising from it and of thankfulness and gratitude to those who gave it, with

the ardent wish that it prove another instance where "It is more blessed to give than to receive."

The other contributors are many in number and in many cases liberal in amount. The subscriptions show that they are in all walks of life and in every section of the town, but the limits set upon this report does not permit the mention of the individual givers here and therefore the name of each contributor of five dollars or more with the amount contributed is appended; and to all of these contributors whether large or small, whether their names appear on the list or not, the management in behalf of the beneficiaries of the hospital express sincere thanks with the hope that each and all may find pleasure and satisfaction in remembering that when this charitable institution was in need and called for help they answered the call, each according to his means and ability.

The hospital is under great obligations to the committee having charge of soliciting the funds and to the different canvassers who assisted them in the work for the intelligent, frank and straightforward way in which its needs were stated and set forth. In this way many have come to understand the true condition of affairs and to see that if the mission of the hospital is to be fulfilled and the good work it has to do is to be done, those who can, should, and must assist.

The hospital and its work has of course met with some criticism, but it comes mostly if not wholly from those who have never entered its doors or given aught in its aid. These critics seem to indulge in a sort of gratuitous criticism of an institution of which they know nothing, and by this not wholly novel or unheard-of method to absolve themselves from any obligation to give to it—an easy and very inexpensive way to get rid of claims of this sort.

It is entirely probable that the affairs at the hospital can be improved and any suggestions to that end will be carefully looked into, but it must be confessed that suggestions of this kind come with better grace and more force from persons

who have at least some knowledge of the subject, and some interest in the betterment of the work being done—some interest in building it up rather than pulling it down.

There is still another class of persons met with who make no criticism on the hospital but when asked to contribute to it say that persons are not required to contribute unless they feel like it and as those persons rarely "feel like it," or if their feelings incline them in that direction the shock is so slight as to produce no perceptible effect on the finances of the hospital, it is manifest that another inexpensive way of discharging charitable obligation has thus been discovered.

After the call for help had been made and the responses to it began to come in, the trustees became strongly of the opinion that the call had not been in vain and that at least the substantial part of the money required was to be forthcoming. On that opinion and in that belief the work of building the Nurses' Home and the laundry and heating plant was begun. Both buildings are now nearing completion and the heating plant is nearly if not quite ready to put in operation. The buildings are substantially built, durable, and commodious, and will be sufficient for many years to come for the purposes for which they were built. The cost will not be far from \$43,000.00, although at this time the exact amount cannot be given.

It will thus be seen that there is a considerable sum yet to be raised if all the money expended is to be raised by contribution, and it is hoped therefore that no person will be deterred from giving, by the fear that he is too late or that his contribution will not be needed. Money is still needed and an opportunity to give is still offered to those good enough to avail themselves of it.

The trustees undoubtedly have the power in their discretion to apply a part of the principal of the trust fund to the payment of the cost of these buildings, but in view of the restrictions contained in Mrs. Morse's will, and the rules pre-

scribed by the law for the government of their conduct in the management of the property, they feel a reluctance about encroaching on the principal for this purpose, and shall feel obliged to limit the encroachment to the smallest possible amount.

The opening of the NURSES' HOME, the laundry and heating plant, marks a new epoch in the history of the hospital. It enlarges its capacity and very much improves its facilities for doing its work. Taking the nurses out of the main or administration building leaves more room for the patients there, and some of the rooms in the home can be used temporarily at least, for patients, in case of emergency or an unusual demand. The training school is to be enlarged, the number of nurses increased, and it is the hope and expectation that the hospital will thus be able to meet and fully supply the demand for nurses in the home. This, it is confidentially believed, will be found of mutual advantage and benefit—to the public in having the nurses within calling distance and at cheaper rates, and to the hospital in having the money paid for the nurses to help to pay the cost of its support.

The laundry which is in the same building or under the same roof as the heating plant is a model of its kind—probably the equal of any in the state—and with laundry machinery of the best, it is certain that the laundry work of the hospital, large as it is, can now be properly done where it should be done, at the hospital.

The heating plant from which steam heat is to be supplied has been built and installed with great care and thoroughness. While under ordinary circumstances one boiler would be sufficient to supply ample heat, yet in view of the consequences of a break down, two boilers have been installed, either of which has sufficient capacity to supply all the heat required.

Whether these additions and increased facilities are to add to the cost of running the hospital over and above its

income, is perhaps problematical. The hope has been expressed that the increased income from the increased number of nurses and patients will fully if not more than offset the increased cost, but whether this hope is sufficiently strong to justify a reasonable expectation of its fulfillment must be left to be determined after some time has passed over. In the meantime, however, the hospital will go on in its mission of healing and restoring to health and usefulness, those who have had the misfortune to fall in sickness by the way side, trusting that if in the end a deficit shall be found to exist, kind friends may be found to come forward and relieve against it.

Indeed, faith and trust constitute the basis on which these institutions are chiefly run—faith in the justice of the cause and trust in the goodness of the charitable to lend a helping hand in the time of need.

Besides the contribution to the building fund that will be found in the list of contributors which is attached to this report, Mr. F. W. Hunnewell gave the further sum of one hundred dollars towards the support of the hospital, the amount of his usual annual gift. The other contributions will be found in the superintendent's report.

In July Mr. Clark resigned, after a faithful service as trustee and treasurer of the board for fourteen years. He was one of the original trustees and had been twice re-elected; he has had a wide and extensive experience in business matters and his experience and judgment were of much value and assistance in the management of the affairs of the hospital. The trustees delayed for a time filling the vacancy in the hope that the resignation might be withdrawn or recalled, but the hope was not realized and in December Mr. William S. Patten was elected to fill the vacancy.

On account of the onerous duties of ward surgeon with which he was charged, Dr. Burke resigned as attending physician and was elected attending surgeon.

Dr. Charles E. Hills of South Natick has been elected attending physician to take the place of Dr. Burke, and Dr. George C. Anthony of Wellesley has been elected one of the assistant physicians; otherwise, there has been no change in the medical staff during the year. Few realize the amount of service these physicians give to the hospital free, or the amount of time spent or pains taken in caring for the sick without even the civility of a thank you for it. It would really seem that they bear more than their fair share of the burden of sustaining this charity.

Miss Elliot and Miss Allen still continue in their respective positions to perform their respective duties with efficiency and to the entire satisfaction of the trustees. Nothing can be added to what has been said in their favor in former reports and certainly nothing is withdrawn or taken away.

E. B. Bigelow, who has been general caretaker at the hospital since it was opened, was obliged to give up the work on account of ill health. He has been a faithful and trustworthy man and always guarded well the interests of the hospital.

The financial statement herein made can in the nature of things only be of the most general character. It may be said however that the trustees are not only willing but anxious that full and exact knowledge be had, to the end that if criticism is to be indulged in, or fault is to be found, it may be with the real condition rather than with an imaginary or fanciful state of facts. The trustees should have no mystery or concealment in the discharge of their duties, and they see no reason why any citizen of the town at any reasonable time for any reasonable purpose should not have reasonable access to the account of the management of the hospital.

An account is kept with as much fulness and accuracy as the nature of the business requires, and the account will be shown by Mr. Leamy, the treasurer of the board, at any reasonable time to any citizen having a reasonable interest in seeing it.

Chairman.

SUPERINTENDENT REPORT.

Leonard Morse Hospital,
December 31, 1907.

To the Trustees:

Gentlemen:—I have the honor to present herewith my ninth annual report of the Hospital for the year January 1, 1907, to December 31, 1907, inclusive.

STATISTICS.

Number of patients in the Hospital Dec. 31, 1906	13
Admitted from Jan. 1 to Dec. 31, 1907, inclusive	156
Number treated during 1907	169
Admitted: Males, 66; Females, 90;	
Surgical Cases, 93; Medical cases, 63;	
Discharged well	111
Discharged improved	26
Discharged not improved	5
Died	17
Remaining in Hospital Dec. 31, 1907	10
Deaths within 24 hours of admission	4
Number of operations	94
Largest number of patients in the Hospital during 24 hours	13
Smallest number of patients in the Hospital during 24 hours	2
Daily average number of patients	7.72

NATIVITY OF PATIENTS ADMITTED DURING THE YEAR.

United States	103
Canada	17
Ireland	21
Italy	4
Sweden	3
Norway	2
England	2
Albania	2
Russia	1
Scotland	1

There has been received \$3,808.71 on account of all classes of paying patients.

From town cases, Natick,	\$ 51.00
From town cases outside Natick,	164.30
From State cases,	58.00
From ward patients,	1606.51
From private patients,	1928.90
To this may be added for outside services of nurses, surgical supplies, etc.,	573.34
Total,	<hr/> \$4382.05

The Hospital has given to eight patients one hundred and fourteen days free treatment, which at the regular ward rate of \$10.50 per week amounts to \$171.00. To this should be added \$137.80 which was lost through patients failing to pay according to agreement, making a total of \$308.80 which has been given in absolutely free treatment this year. This does not include the gratuitous services of the physicians and surgeons of which the ward patients have had the benefit.

We have treated the largest number of patients since the opening of the Hospital, with the exception of last year,

but the increase in the number of admissions for the year 1906 over this year was due to the epidemic of typhoid fever which occurred in the fall of that year. Therefore comparison can only be made with the year 1905. We hope in a few months the Nurses' Home will be ready for occupancy and the crowded condition of the Hospital relieved. Some of the rooms now used for nurses can be utilized for patients.

The ambulance has carried during the year 60 patients.

HOSPITAL SUNDAY.

The contributions from the churches Hospital Sunday were as follows:

St. Patrick's Church, Natick,	\$125.00
Congregational Church, Natick,	117.03
Sunday School, Congregational Church, Natick,	3.10
Eliot Church, South Natick,	25.74
Baptist Church, Natick,	21.06
Unity Church, Natick,	16.10
Memorial Congregational Church, So. Natick,	11.52
St. Paul's Episcopal Church, Natick,	8.55
Methodist Church, Natick,	5.00
Total,	<hr/> \$333.10

The Fourth Children's Donation Day was held on the grounds of the Hospital June 15th. Two hundred and twenty-seven children were present. Miss Sarah Goodnow and ladies of the Hospital Committee helped entertain them. Mrs. Henry S. Hunnewell furnished the refreshments. There were many donations, all such as the Hospital needed. Among other things 154 3-4 lbs. of sugar, the largest amount yet received. We hope next year the children will fill the barrel.

Our fifth Donation Day for adults, under the direction of the hospital Committee of the Woman's Club, took place October 2nd. Owing to the fact that there were several entertainments on that date, not as many came as last year, but those

present enjoyed the social time and the music which was furnished by Hall's Orchestra again this year. Light refreshments were served. Mr. McKechnie, as usual, contributing.

It is earnestly desired that all the people take a personal interest in Donation Day and by their presence, encourage the management in the work which they are doing, as well as by their gifts, help in making the running expenses as small as possible.

To the Hospital Committee and all co-operating with them the management would express their appreciation of the assistance rendered.

Eight patients were with us on Christmas. Two small trees were decorated and hung with gifts. In the morning through the kindness of Rev. G. W. Sargent, Rector of St. Paul's Church, the patients had much pleasure in listening to Christmas carols, sung by the choir of the Episcopal Church. Probably few people realize how much pleasure the patients have on Christmas or how little it takes to make them happy. Those who did contribute to their happiness may feel assured that the kindness was appreciated.

We are indebted to Mrs. McDonald for the music we have had on Sundays. By the Hospital Committee of the Woman's Committee of the Woman's Club, the Young Ladies' Guild of the Congregational Church, The Farther Lights of the Baptist Church, Mrs. William Goodnow, Mrs. W. L. Coolidge, Mrs. Louis McCracken, Mrs. Matthew Lawlee, Miss Jessie and Miss Laura Dawson, the following amount of sewing has been done: 81 bandages, 51 ice cap covers, 48 swathes, 36 dusters, 90 napkins, 2 bureau covers, 2 stand covers, 6 sheets, 18 holders, 48 comb cases, 38 candy bags, 1 table cloth, nurses' caps, infant's wardrobe consisting of 4 dresses, 3 shirts, 2 wrappers, 2 night gowns, 26 napkins.

Through the kindness and generosity of Mrs. Frank McMahon the Hospital owns a handsome flag. This we have long

wanted but did not expect to have. Perhaps there is some one who would like to give us a flagstaff.

From the Woman's Club, Mrs. F. E. Sturgis, President, we received tickets for the musical on February 1st.

We take pleasure in expressing our gratitude to the physicians and surgeons for their services rendered to the ward patients to the amount of \$4,659.50. We would thank the friends who have aided us in the past and would bespeak their continued favor.

With the funds entrusted to our care we have done the best we know how, and we feel what we hope is a pardonable pride in the results as presented in this report.

The Hospital is open at all reasonable hours for inspection, and we invite all who are in any way interested in charitable work to visit us.

In presenting this, my ninth annual report to the Trustees, I tender to them my grateful acknowledgments for their continued support and confidence.

Respectfully submitted,

EMMA T. ELLIOTT.

Superintendent.

LEONARD MORSE TRAINING SCHOOL FOR NURSES

The school completes its seventh year. Owing to the change in the length of the course from two to three years there have been no nurses to graduate. The Superintendent of nurses and her assistant have given seventy-five class instructions. The school has received fifty lectures from the physicians connected with the Training School and others. Twenty-eight lessons in Domestic Science were given by Miss Sprout. Mrs. Callowhill has been in charge of the massage since the Training School was established. Mr. H. Carlton Smith still gives the instruction in Chemistry and Urinalysis and this year the class in Anatomy and Physiology is conducted by Dr. E. A. Miller. We feel that the time spent in District Nursing under Miss Daniels and in maternity nursing at the Providence Lying-In Hospital has been of much value to the nurses.

We express our gratitude for the lectures given to the pupil nurses by Dr. Edward French of Medfield, Dr. John Lovett Morse, Dr. E. H. Holmes and Dr. P. Somers Smith of Boston, and the physicians connected with the Training School.

We appreciate the faithful attendance upon the patients by the staff and their interest in the welfare of the Hospital.

At the January meeting of the Nurses' Club we had a very interesting lecture by Dr. Morris H. Turk on Historic Boston, illustrated by a stereopticon which was managed by Mr. H. Carlton Smith. At the March meeting Dr. W. H. Sylvester and Miss Sylvester entertained the club with some very fine graphophone selections which were much enjoyed by all. At the November meeting the graduates of the school formed an

Alumnae Association, the object being to promote good fellowship among its members, to advance the interests of the nurse's calling and for mutual helpfulness.

In June we had our Hospital Supply Day which was held on the grounds. All the graduates who could came in the morning prepared to work on surgical supplies. They were asked to bring a friend with them. Much was accomplished. Lunch was served in the tent.

Respectfully submitted,

EMMA T. ELLIOTT,

Superintendent of Training School.

LIST OF GRADUATES.

Leonard Morse Hospital Training School for Nurses:

1901.

Miss Rose M. Dyer, private nurse, Medford, Mass.

1902.

Miss Alberta I. Morton, private nurse, New York City.

Miss Gertrude S. Newcomb, private nurse, Natick, Mass.

Miss Elsie Boynton, private nurse, Boston, Mass.

1903.

Miss Grace E. Colby, Leonard Morse Hospital, Natick,
Mass.

Miss Mary B. Gallagher, married, Natick, Mass.

Miss Martha McKenzie, private nurse, Natick, Mass.

Miss Agnes E. Gorman, private nurse, New York City.

1904.

Miss Sarah J. Campbell, private nurse, New York City.

Miss Minnie A. Edwards, private nurse, Natick, Mass.

Miss Martha A. Beal, private nurse, Natick, Mass.

1905.

Miss Gertrude G. Jenkins, private nurse, Natick, Mass.

Miss L. Agnes O'Connor, private nurse, New York City.

1906.

Miss Margherita B. P. Jolly, private nurse, Boston, Mass.

Miss Laura B. Phinney, Leonard Morse Hospital, Natick,
Mass.

Miss Emily V. Stiles, private nurse, Natick, Mass.

Miss Martha Walker, private nurse, Whitinsville, Mass.

DONATION DAY.

The cash donations for this year, amounting to \$316.00 were received from the following persons:

Mr. A. H. Alitchul, New York,	\$3.00
Miss Grace E. Colby,	1.00
Dr. W. O. Copithorne,	5.00
Mr. P. H. Cooney,	50.00
Miss Nellie Daniels,	1.00
Mr. John T. Donnelly,	1.00
Mr. Morton A. Durkee,	4.00
Mr. Frank Fitzgerald,	1.00
Friend,	2.00
Friend,	1.00
Friend,	1.00
Friend, Worcester,	2.00
Irma and Violette Godendorf,	1.00
Mrs. N. B. Goodnow,	5.00
Miss Margaret Gorman,	2.00
Mrs. Annie Hall,	1.00
Mrs. Charles E. Hills,	1.00
Mr. F. W. Hunnewell,	100.00
Mrs. H. S. Hunnewell,	50.00
Mr. Walter Hunnewell,	25.00
Mr. Samuel V. Hunter,	1.00
Mr. J. B. Leamy,	25.00
Mrs. Frederick S. Loker,	5.00
Mr. Henry C. Mulligan,	10.00
Miss Nora Mullen,	2.00
Mrs. A. J. Nichols,	1.00

Miss Laura B. Phinney,	1.00
Mr. P. Rowan,	2.00
Mr. L. P. Stone,	5.00
Dr. Morris H. Turk,	2.00
Mr. E. T. Wilson,	5.00
Total,	<hr/> \$316.00

Also received during the year—

Miss Emma M. George, Boston,	\$5.00
------------------------------	--------

Groceries, Vegetables, Fruit, Preserves, Dry Goods, Etc.:

Mrs. Charles Blanchard, 2 pkg. rolled oats, 1 pkg. cream of wheat; Miss Lizzie Bellam, 2 jars pepper relish, 2 lbs. sugar, 2 glasses jelly; Mrs. William Brown, old linen; Mrs. Robert Bennett, pk. grapes; Mr. J. E. Cooper, 100 pkgs. toilet paper; Mrs. Edward Clark, 2 damask towels; Miss Edith E. Childs, 1 pkg. boraxine; Mr. W. F. DeMerritt, step ladder; Mrs. Daniel Dacey, 1 jar preserves; Mrs. J. Daniher, 5 lbs. sugar; Mr. A. P. Derby, tuning piano; Mrs. Andrew J. Fuller, 1 bushel pears; Friend, 2 towels; Friend, 2 glasses jelly; Friend, old linen; Friend, tomatoes, 1 pkg. cream of wheat; Friend, 1 jar preserves, 1 pkg. oat meal; Mrs. Samuel H. Hunter, 1 bottle pickles, 1 bottle ketchup, 2 pks. corn starch; Mr. Melvin H. Goulding, 1 gal. vinegar, 1 nickel ice pick; Mrs. Melvin H. Goulding, loaf cake; Miss Marion Goulding, oat meal cookies; Mrs. Hannah Ginder, 6 cakes soap, 5 lbs. sugar; Mrs. Isaac Gale, 6 glasses jelly; Mrs. C. A. Goodnow, grapes; Miss Josie Garvin, 5 lbs. sugar; Mrs. J. W. Higgins, Dover, 5 glasses jelly; Horlick's Food Company, Racine, Wis., malted milk; Howe & Perry, 4 bath towels; Mrs. Samuel H. Hunter, rolled oats, soap, box mustard; Miss M. Hartwell, 4 towels, 6 pkgs. macaroni; Master Harvey Harding, 1 jar dried beef; Mrs. Nellie Harding, 5 bars soap; Mrs. Frank McMahan, 2 jars tomatoes, 1 jar chili sauce, 2 bottles ketchup, 2 jars preserves; Miss Jennie Mann, 1 bottle salad dressing; Mrs. M. O. Nelson, bath towels; Oliver Brothers, 1 box codfish; Billy O'Brien, 6 cakes

soap; Mrs. John Pine, cranberries, cream of wheat, celery, chocolate; Mrs. Catherine Perry, oat meal; Mrs. A. E. Pratt, old linen; The Palami Company, Boston, 54 bottles hand white, 12 bottles silver polish; Mrs. H. W. Rice, new cotton cloth; Mrs. W. A. Stearns, soap, carrots; Mrs. F. E. There may be others whose names are unknown to us

RULES AND REGULATIONS.

SUPERINTENDENT.

The Superintendent of the Hospital shall be an educated nurse, trained in executive duty. Subject to the Trustees, she shall have the responsibility of the conduct of the Hospital, of the nursing service and the training of nurses, and of the execution of all directions given them by the attending physicians and surgeons; and shall have sole oversight of the housekeeping in all its departments, and be responsible for the orderly condition of the household and its work.

She shall have the power of appointment and removal of employees under her direction.

She shall keep an account of all furniture and hospital property; she shall keep such accounts as are placed in her charge, of all money received and expended by her, and shall render a monthly statement thereof to the Trustees.

She shall take charge of all money and other personal effects belonging to the patients, shall keep a record of the same in a book provided for that purpose, and shall take a receipt for the same when returned to the patients. When a patient dies she shall furnish the Trustees with an inventory of all the effects and the Trustees shall direct their disposal.

She shall purchase provisions and supplies of all kinds, examine them when received, and be responsible for their proper quantity, quality and cost, and for their proper care and economical use.

She shall keep memoranda of breakage or losses occasioned by the patients or otherwise, and she is directed to require

payment for any article carelessly injured or broken, and to make a report each month to the Trustees.

She shall keep a record of all gifts received at the hospital.

She shall receive all patients recommended for admission in the manner directed by the Trustees.

She shall see that the proper surety is furnished for the payment of hospital charges, and shall assign patients to appropriate beds or rooms.

She shall keep a register of all patients admitted, noting the particulars of the same, filling out the bed card, etc., in the manner provided. When a recommendation is received for the discharge of a patient, she shall act upon the same, and shall attend to the settlement of the patient's accounts.

She shall keep a record of the discharge, and, on the part of the hospital, see that the removal is made with all the care the patient's condition may require.

She shall see that all patients receive proper attention on admission, that everything necessary is done for their care and comfort under the direction of the attending physician, or of the physician or surgeon by whom the patients have been sent, and that all proper care is given during their stay in the hospital.

She shall report to the Trustees monthly the names and conditions of all patients remaining in the hospital more than four weeks.

She shall send for the physician or surgeon in attendance, in all cases of emergency, or if he cannot be found, for some other member of the medical staff.

When the condition of a patient becomes dangerous, she shall immediately notify the friends and relatives of such patient.

Upon the death of a patient she shall immediately give written notice to the family or friends requesting them to make proper arrangements for removal. No body shall be removed between the hours of 6 p. m. and 7 a. m. She shall keep a copy of notice sent to relatives of deceased patients. Upon de-

livery of the body to the friends or the undertaker she shall take a receipt therefor.

No instrument, apparatus, book or other property belonging to the hospital shall be taken therefrom without her consent, and she shall keep a record of all articles so taken.

She shall daily visit and inspect the wards, kitchen, laundry and all other departments of the hospital.

The superintendent is requested to discourage conversation at her table and in every other place, either in the hospital, or outside, upon all topics in the nature of gossip about any patient. Any nurse or servant who disregards this injunction shall be liable to be discharged.

VISITING PHYSICIANS.

The regular medical and surgical service of the hospital shall be entrusted to a staff of six attending physicians who shall be elected by the Trustees, and shall hold their offices for one year or during the pleasure of the Trustees, and until their successors have been elected. The trustees shall also elect one or more attending surgeons who shall hold their positions under the same conditions as the attending physician. The trustees shall also elect an attending homeopathic physician, and one or more assisting physicians, who shall hold their offices on the same conditions as the members of the staff. The trustees shall also elect one or more physicians and surgeons, who shall be consulting physicians and surgeons, and shall hold their offices until the next annual meeting, and until their successors have been elected.

The term of service of the attending physicians shall be two months each, the order of service to be arranged as provided by the Trustees.

The member of the staff in attendance shall control and direct the management of the patients under his care. He shall prescribe medicine and diet in the manner provided, and give such other directions as may be necessary for the welfare of the patients. Subject to the approval of the trustees he may arrange to have one of the attending surgeons take charge of the surgical cases during his service. All directions shall be given in writing upon the proper blanks and order books.

He shall make visits as required during his term of service, and will be expected to make such visits regularly between 9 a. m. and 12 m.; or he shall provide as a substitute some other member of the medical staff.

In the absence of the attending homeopathic physician having the case of a patient in a public ward, he shall provide, if possible, another homeopathic physician in his place, subject to the approval of the Trustees. In case he cannot make such provision, the care of the patient shall devolve upon the member of the staff on duty at the time.

The attending physician shall see that a careful clinical record of all patients in his service is kept in the manner provided. This record shall not be taken from the hospital, and no extract shall be made therefrom by any person not authorized by the Trustees.

He shall report to the Superintendent all cases of neglect or inefficiency observed by him on the part of subordinate officers, nurses or other attendants or servants.

It shall be the duty of the physician in attendance to call in consultation one or more of the members of the staff in all cases of severe accident and those requiring capital operations; and it shall be the duty of the consulting surgeon or surgeons, when called, not only to give advice, but to either assist at or perform the operation when so requested by the physicians in attendance, and in grave cases they may be invited to take charge of the patient. When deemed necessary by the attending physician, and at least one other member of the staff, other physicians and surgeons may be called in consultation, provided it be done without expense to the hospital.

No surgical operations shall be performed without the consent of the patients or those in authority over them, when such consent can be obtained. In cases in which such consent cannot be obtained, a record of the reasons shall be made; and in all operations of a grave character, information of the nature of the operation and the danger attending it shall be given to the patient if able to receive it, or to those in authority if their presence can be obtained.

No operation of a dangerous character shall be performed without the consent of at least two members of the medical staff.

The physician in attendance shall see that no autopsy is made within ten hours after notice of death has been sent, unless with the express consent of the family or friends of the deceased, nor at any time when it shall have been expressly prohibited by the patient or by the family or friends. He shall enter every autopsy in a post-mortem register kept for the purpose, giving name of deceased, date of death, notice and examination, whether consent was obtained or not, and by whom the autopsy was made and what it revealed.

No attending physician or surgeon shall receive a fee or pecuniary compensation from a patient in a public ward. The same rules and regulations shall apply to attending surgeons as are now or may be hereafter in force relative to attending physicians.

PATIENTS.

Applications for admission must be made to the Superintendent at the hospital.

Patients will be admitted to the hospital upon the recommendation of any member of the medical staff, or any other reputable physician, subject to the rules of admission and the approval of the Trustees. In such cases satisfactory arrangements shall be made with reference to payment of hospital charges.

Patients will be admitted on each day of the week, Sunday excepted, between the hours of 9 and 11 a. m. Emergency cases and persons accidentally wounded and otherwise disabled, who are taken directly from the place of accident, shall be received into the hospital at any hour by day or night, if proper cases for hospital treatment. The rate to be paid shall be determined as soon as possible thereafter, in accordance with the rules of the hospital.

Patients may be admitted to the hospital at such rates as the Trustees may from time to time determine. Payments are to be secured by the employer or friends of the patient, by the

authorities of the place where the patient belongs, or by the deposit of the amount of two weeks' charges, or more if deemed necessary. When in the opinion of the Trustees the circumstances of the applicant require it a whole or part of the charges may be remitted. The agreement for the stipulated payment shall be in writing in the form provided.

Patients paying ten dollars and fifty cents per week may be admitted to the public wards; all patients in public wards shall be regarded as beneficiaries of the hospital. No patient shall occupy a free bed more than six weeks, except by special permission of the Trustees. Patients desiring private rooms will be admitted upon special terms in each case.

The price of a private room does not include professional attendance. A patient paying for a private room may select as professional attendant any one of the physicians connected with the hospital, and must arrange with him in regard to his compensation before admission to the hospital, or on his first visit thereafter.

The Superintendent is authorized to make special terms for patients in private rooms requiring extra nursing, and requiring expensive medical and surgical supplies for their treatment.

Persons suffering from insanity, contagious diseases, acute venereal diseases, or persons having delirium tremens shall not be admitted.

No person shall be admitted to the hospital whose case is adjudged incurable, unless there be urgent symptoms which are deemed capable of being relieved.

Any patient who prefers, can have a homeopathic physician if practicable.

Whenever any patient shall be removed from the hospital without the approval of the attending physician, the Superintendent shall require from the person assuming the responsibility for the removal a written statement to that effect.

Patients must be in the hospital except when allowed to go out by the physician or Superintendent.

Patients either disorderly or disobedient may be discharged at the discretion of the Superintendent.
